AGAIN THIS YEAR, ACG will consider late-breaking abstracts of high quality clinical research results for presentation during the Annual Scientific Meeting. ACG will consider extending the program to create a few additional oral presentation slots in response to submissions of great merit and clinical interest.

Please do not resubmit abstracts already considered during the regular 2019 abstracts review process.

Deadline to submit late-breaking abstracts:
TUESDAY, SEPTEMBER 3, 2019
11:59 pm Eastern Time

acgmeetings.gi.org/late-breaking-abstracts

See page 184 for more information.
Dear Colleagues,

It is my great pleasure to invite you to ACG 2019, the American College of Gastroenterology’s Annual Scientific Meeting and Postgraduate Course, which is the premier GI clinical event of the year. This year ACG returns to beautiful San Antonio at the Henry B. Gonzalez Convention Center for courses and scientific plenary sessions with a focus on the educational needs and priorities of clinical GI practitioners. Internationally known faculty and rising stars in the fields of gastroenterology and hepatology will deliver the latest clinical updates on common and not-so-common GI disorders, as well as what is on the horizon that may impact your practice. Get the answers you seek, exchange ideas with fellow colleagues, learn the latest clinical updates, and gain insight from the experts at ACG 2019.

The scientific program, course agendas, and symposia have been planned for GI physicians and their non-physician colleagues by members of ACG’s Educational Affairs Committee whose experience and insights inform the College’s educational priorities. The Committee has designed ACG 2019 to cover the topics of greatest importance to you.

The College seeks to meet the needs of busy GI clinicians and offers flexible options to maximize your education while minimizing the time away from practice. You can customize your schedule to attend one day for one or more of the special Friday courses, two days for the Postgraduate Course, three days for the Annual Scientific Meeting, or a combination of the three. At ACG 2019, you won’t find dozens of concurrent sessions so you won’t miss any important topics relevant to your practice.

ACG 2019 delivers many benefits to attendees:

- Numerous educational sessions that will provide ways to enhance patient care and improve efficiency in your practice
- Earn CME and MOC credit for all courses
- Cutting-edge research presented by colleagues from the U.S. and abroad
- Networking events to connect with old colleagues and make new contacts
- An exhibit hall showcasing the latest advances in technology and therapeutics

ACG’s popular FREE Hands-On Workshop Center returns! Located in the Exhibit Hall, leading experts will demonstrate the latest tools and techniques using the most advanced devices and equipment. Pre-registration for the hands-on sessions will take place on-site in San Antonio. The Hands-On Workshop Center will be open beginning Sunday, October 27th. See page 14 for more information.

The ACG Annual Scientific Meeting is the ONLY major GI meeting that is still offered as a member benefit at no extra charge. ACG members also receive discounted registration rates for the Postgraduate Course and Friday courses. One reason the College can continue to offer this as a member benefit is the participation of exhibitors at the meeting. Exhibitor participation in the Exhibit Hall, as well as exhibitor sponsorship and promotion, helps to offset costs for the meeting. Without their support, the meeting in its current form would not be possible. Exhibitor participation also gives you the opportunity to learn the latest information about their products without disrupting your busy work schedule. I encourage every attendee to visit the Exhibit Hall while at ACG 2019, take advantage of all that you can see and learn, and express your appreciation to exhibitors for their participation at the meeting.

The Exhibit Hall Opening Reception will be held on Sunday, October 27th, immediately following the Postgraduate Course. This event provides an opportunity for PG Course registrants to mix and mingle with colleagues while browsing the Hall and viewing the posters being presented. Those registered for the Annual Scientific Meeting are also invited to this evening reception.

Once again in 2019, the College will be all-digital with faculty presentations for ALL courses available through the ACG meeting app. Charge your phone, tablet, or laptop and bring it with you to ACG 2019 to view speaker slides during the presentations, and take notes within the app.

I urge you to join me in San Antonio, on October 25th through the 30th. You will return to the office re-energized about your profession having expanded your knowledge and reconnected with colleagues. Registration and housing for ACG 2019 are now open. You can find more information beginning on page 4. Learn more about what to do and see in San Antonio on page 9.

Sincerely,

Sunanda V. Kane, MD, MSPH, FACG,
ACG President

**Cancellation**

Written notice of cancellation and requests for refunds must be sent to registration@gi.org by October 2. There will be a $50 administrative fee for cancellation of paid events. Refunds will be issued after the meeting. After this date, no refunds will be possible. Registration cancellations are not accepted by telephone.
PRE-REGISTRATION NOW OPEN
Pre-registration for ACG 2019 is available online only at the meeting’s secure website, acgmeetings.gi.org.
Pre-registration will remain open until Friday, October 18. After this date, on-site registration will be required. For questions regarding registration, contact Meeting Services at registration@gi.org or 301-263-9000.

ON-SITE REGISTRATION
You may register on-site at the ACG 2019 Registration Desk in the Main Lobby (Street Level) of the Henry B. Gonzalez Convention Center beginning at 6:00 am on Friday, October 25. Some sessions have limited space available. Pre-registration is strongly recommended.

CANCELLATION
Written notice of cancellation and requests for refunds must be sent to registration@gi.org by Wednesday, October 2. After this date, no refunds will be possible. Registration cancellations are not accepted by telephone. There will be a $50 administrative fee assessed for cancellation of paid events. Refunds will be issued after the meeting.

MEETING MATERIALS
Meeting materials, including attendee badges and bags, will be available for pick-up on-site at the ACG 2019 Registration Desk beginning on Friday, October 25. Attendees who are registered for the Postgraduate Course will also receive a complimentary copy of the 2019 Self-Assessment Test (SAT) book.

Your registration includes access to the course presentations via the ACG 2019 Meeting App, which will be available within the ACG Mobile App. An online version of the meeting app will also be available. With the app, attendees will have full access to all available slide presentations for each course for which they have registered. The app also contains a fully searchable schedule of events, list of program faculty, abstracts, maps, exhibit information, and more. (NOTE: No printed course materials or USBs will be available.)

Information on how to access the app, from both the Apple and Android app stores, will be e-mailed to all registrants shortly before the meeting. For additional information about the app, please visit acgmeetings.gi.org/education/meeting-materials.

EXHIBIT HALL
The science and technology of medicine is ever-changing and advancing the practice of gastroenterology. Showcasing these latest advances in technology and therapeutics is the ACG 2019 Exhibit Hall where more than 150 companies will display and demonstrate their products and services.

Companies that exhibit include pharmaceutical manufacturers, medical instrument suppliers, research companies, technology companies, publishers, non-profit organizations, recruiters, and more.

THE ACG STORE
Visit the Store while at the meeting to purchase promotional items from ACG.

ON-SITE CHILD CARE
Visit San Antonio recommends the following company for on-site child care services:

• Northside Sitters Club: northsidesittersclub.com

Private Nursing Rooms: The Henry B. Gonzalez Convention Center offers dedicated private rooms for nursing mothers. Please stop by the ACG registration desk for details.

ABOUT ACG
The American College of Gastroenterology is a recognized leader in educating GI professionals and the general public about digestive disorders. Our mission is to advance world-class care for patients with gastrointestinal disorders through excellence, innovation, and advocacy in the areas of scientific investigation, education, prevention, and treatment. To learn more about ACG, visit our website at gi.org.

ABOUT SAN ANTONIO
Attendees and their families will find plenty of attractions in and around the San Antonio area. Visit www.visitsanantonio.com.

ACCOMMODATIONS
Rooms have been booked at six hotels in close proximity to the Henry B. Gonzalez Convention Center. The Grand Hyatt San Antonio, located at 600 E. Market Street, will be the official ACG headquarters hotel. Book your room now through the official housing website. See page 7 for more information.

AMERICANS WITH DISABILITIES ACT (ADA)
Attendees at the ACG 2019 who need additional reasonable accommodations or have special needs should contact the ACG office no later than October 2, 2019 at registration@gi.org.
ENJOY YOUR STAY IN SAN ANTONIO AT ONE OF THESE HOTELS IN THE ACG 2019 ROOM BLOCK. Rooms have been booked at six hotels in close proximity to the Henry B. Gonzalez Convention Center. The Grand Hyatt San Antonio, located at 600 E. Market Street, will be the official ACG headquarters hotel. EXPLORE San Antonio's Vibrant History and Colorful Present!

In its early days as a Spanish settlement, San Antonio was home to several missions. Built by Spain to expand its power north of Mexico, the missions were also established to convert the native population. Five missions still exist today for visitors to explore — Concepción, Espada, San José, San Juan, and the oldest and most famous, the Alamo. It was at the Alamo where Texans fought for independence from Mexico and it is one of the most photographed building facades in the nation.

Additionally, San Antonio is one of the cities linked by the Old Spanish Trail, a byway of cities of Spanish conquest and settlement. The Old Spanish Trail starts in St. Augustine, Florida, passes through San Antonio, and ends in San Diego, California.

San Antonio’s heritage is also evident in several of its neighborhoods. La Villita Historic Arts Village features art galleries, shops and restaurants enlivened with San Antonio’s Hispanic heritage. Market Square features a number of plazas, with the El Mercado being the largest Mexican market north of the Rio Grande, with more than 32 shops and 80 specialty shops in the Farmers Market Plaza. Market Square is also the site of several Hispanic festivals each year. At the Main Plaza, which dates back to the early 18th century, huge trees, bubbling fountains, and landscaping enhance the heart of the city.

In addition to its Hispanic heritage, in the late 19th century, a number of prominent German merchants settled in the San Antonio neighborhood of King William Historic District. A 25-block area near downtown, the first historic district in the state is boasts numerous examples of Greek revival, Victorian, and Italianate architecture.

LOCALS RECOMMEND

Explore the "Museum Reach" section of the River Walk for views of unique public art including an exhibit called “F.I.S.H.” that includes 27 sunfish swimming in the sky under the I-35 overpass near Camden Street. Visit the San Antonio Museum of Art. Don’t miss the eateries, bars, and shops at Pearl. For family fun, visit the San Antonio Zoo, wander the Witte Museum, explore the grounds at the San Antonio Botanical Garden, or stop by to learn something new at the DoSeum, a STEM-focused children’s museum.

A RIVER WALK RUNS THROUGH IT

Connecting the city and offering visitors an easy and peaceful way to explore San Antonio is the River Walk, or Paseo Del Rio. It is the River Walk that will connect ACG 2019 attendees to the meeting hotels, convention center, restaurants, and shops. The only sounds you will hear are the slow cruise boats gliding along the river, the footsteps from people strolling by, or the chatter from restaurant tables that cozy up to the River Walk. Along the River Walk, you’ll find charming paths, outdoor art, and waterfalls.

There is so much more to see and do in San Antonio. Visit www.visitsanantonio.com for more suggestions.
There are numerous opportunities at ACG 2019 to network with your peers. Here are a few of the events taking place this year.

**EXHIBIT HALL OPENING WELCOME RECEPTION**

The American College of Gastroenterology is committed to serving the specific needs of GI trainees. ACG 2019 includes elements designed with this aim in mind.

**NAVIGATING, NETWORKING, AND NEGOTIATING YOUR FIRST JOB WORKSHOP**
Friday, October 25, 2019
5:00 pm – 8:15 pm | Room 302AB (Ballroom Level)
The ACG Women in GI Committee is hosting a program for both men and women geared towards senior GI fellows and junior faculty, addressing the specifics of both the private practice and academic job search. Discussions will focus on details of private practice versus academics, contract analysis, networking skills, negotiating skills, and work-life balance. Separate breakouts for small group discussions are planned.

Advance registration is required and space is limited. There is a $30 fee for this workshop. Dinner will be provided. To register, please visit the ACG 2019 registration page at acgmeetings.gi.org/meetinginfo/registration.

**CAREER OPPORTUNITIES FOR WOMEN IN GI LUNCHEON**
Saturday, October 26, 2019
12:20 pm – 1:35 pm | Room 305 (Ballroom Level)
The ACG Women in GI Committee is hosting a program geared toward residents, trainees, and junior faculty who are facing difficult decisions regarding the future of their medical careers. Female gastroenterologists from a variety of medical backgrounds will address the issues of being a female subspecialist, balancing career and family, and opportunities for women in medicine, and more specifically, gastroenterology. This is a free program for attendees at ACG 2019.

Advance registration is required and space is limited. Register online at acgmeetings.gi.org/career-opportunities-for-women-in-gi-luncheon/

**GI JEOPARDY: BUZZ IN FOR YOUR TRAINING PROGRAM**
Saturday, October 26, 2019
5:15 pm – 7:00 pm | Room 301 (Ballroom Level)
GI Jeopardy will return in 2019! To become a contestant, you must be a fellow-in-training, but all are welcome to attend the competitive final round, a spirited GI version of the television classic.

The competition begins in July with a preliminary round open to all GI training programs. Groups of fellows take an online test on a variety of GI topics and diseases. The top five scoring programs will then be invited to send two-person teams to compete in front of a live audience at ACG 2019. Travel expenses for the teams will be covered by ACG. Last year’s GI Jeopardy finalists were supported by more than 300 lively audience members giving the event a real game show atmosphere. Light refreshments will be provided. Free and open to all attendees.

**TRAINEES LUNCHEON**
Sunday, October 27, 2019
12:20 pm – 1:35 pm | Room 305 (Ballroom Level)
Once again, a special luncheon program exclusively for Fellows-in-Training will be offered on Sunday, October 27th during the Postgraduate Course. This year’s luncheon will feature a faculty panel ranging from early to senior career, representing private practice, academics, hybrid practice and 4th year fellowships, who will briefly share their story and then take questions from attendees. Don’t delay, as this luncheon sells out every year.

Advance registration is required and space is limited. This luncheon is available to all trainees in gastroenterology and hepatology, and has a fee of $40. To register, please visit the ACG 2019 registration page at acgmeetings.gi.org/meeting-info/registration.

**HANDS-ON WORKSHOP CENTER - TRAINEE-ONLY SESSIONS**
Monday, October 28, 2019
7:45 am – 9:30 am | Exhibit Halls 3 & 4
The always popular FREE Hands-On Workshop Center sessions will again be offered in the Exhibit Hall. Expert faculty will demonstrate techniques and devices and attendees will then have an opportunity to practice using the equipment. Each session will feature a wide variety of equipment and products. In addition, trainee-only hands-on sessions will be offered. More detailed information regarding registration will be coming soon. Trainees are also welcome to participate in any hands-on session offered Sunday – Tuesday.

**HOW TO GET PUBLISHED: AN ACG JOURNAL EDITORS ROUNDTABLE**
Monday, October 28, 2019
4:00 pm – 5:00 pm | Room 303 (Ballroom Level)
ACG’s journal editors frequently receive questions about how best to get published, how they assess submissions, and how to best format a manuscript. In this session, the editors reveal answers to the “Top 10 Questions” they receive about the publication process and share pearls of wisdom about what works—and what doesn’t work—when submitting papers for publication. DAVID SUN LECTURE
The IBD Medical Home and Neighborhood: It Takes a Village
Miguel D. Regueiro, MD, FACC
Saturday, October 26 | 10:00 am – 10:30 am | Stars at Night Ballroom
Join Dr. Miguel D. Regueiro as he discusses the role of alternative models of care, such as the medical home, for the management of inflammatory bowel disease when he presents the ACG David Sun Lecture.

Dr. Regueiro earned his bachelor’s degree at the University of Pennsylvania, his medical degree at Drexel University, then completed his internal medicine internship and residency, and clinical and research fellowship training in gastroenterology at Harvard Medical School’s Beth Israel Hospital. Dr. Regueiro was Professor of Medicine and Clinical and Translational Science at the University of Pittsburgh School of Medicine as well as the IBD Clinical Medical Director and Associate Chief for Education and former Director of the Gastroenterology, Hepatology, and Nutrition Fellowship Training Program at the University of Pittsburgh Medical Center. He was also Senior Medical Lead of Specialty Medical Homes at UPMC. He is currently Chair of the Department of Gastroenterology and Hepatology, and Professor of Medicine in the Lerner College of Medicine at Cleveland Clinic, Ohio. Dr. Regueiro’s main clinical and research interest is inflammatory bowel disease (IBD), with a focus on the natural course of this disease and postoperative prevention of Crohn’s disease. Recently, he has been involved in developing new models of healthcare, including the first-of-its-kind specialty medical home for IBD.

The David Sun Lecture, held during the Postgraduate Course, was established by Mrs. Sun in memory of her husband, Dr. David Sun, an outstanding gastroenterologist and investigator. Each year, a lecturer with a distinguished background in gastroenterology or an allied field is chosen by the Course Directors of the Postgraduate Course subject to the approval of the ACG Educational Affairs Committee and the ACG Board of Trustees.

THE AMERICAN JOURNAL OF GASTROENTEROLOGY LECTURE
Celiac Disease: Myths and Mysteries
Cláirn P. Kelly, MD, FACC
Monday, October 28 | 3:15 pm - 3:45 pm | Stars at Night Ballroom – B2
Learn how to appreciate the diverse clinical presentations of celiac disease, recognize the challenges and limitations of treatment with a gluten-free diet, and the need for non-dietary adjunctive therapies when Dr. Cláirn P. Kelly presents, “Celiac Disease: Myths and Mysteries.”

Dr. Kelly is Professor of Medicine at Harvard Medical School and Director of Gastroenterology Training at Beth Israel Deaconess Medical Center in Boston, Massachusetts. Dr. Kelly earned his medical degree from Trinity College in Dublin, Ireland where he was a founding scholar and recipient of numerous awards. Dr. Kelly has engaged in patient care and research in celiac disease and Celiac disease infection (CDI), for more than 20 years. In 2004, he co-founded the Celiac Center at BIDMC, and continues to serve as its Medical Director. In 2013, he co-founded the Celiac Research Program at Harvard Medical School. Dr. Kelly is an internationally recognized expert in the diagnosis and management of celiac disease and leads research programs on disease pathogenesis, diagnosis, and new treatment approaches. He has served as a committee member of the NIH, Center for Scientific Review, as well as on FDA, CDC and NIH committees on celiac disease and C. difficile infection. Dr. Kelly has authored more than 250 clinical and basic original research articles, as well as book chapters and invited reviews appearing in medical and scientific journals, including The American Journal of Gastroenterology, The Journal of Clinical Investigation, Gastroenterology, The Lancet and The New England Journal of Medicine.

The AJG Lecturer was chosen by the co-editors of The American Journal of Gastroenterology with approval from the ACG Educational Affairs Committee and the ACG Board of Trustees.

J. EDWARD BERK DISTINGUISHED LECTURE
Post-Colonoscopy Colorectal Cancer: How Are We Doing?
Linda Rabeneck, MD, MPH, MACG
Tuesday, October 29 | 10:05 am – 10:35 am | Stars at Night Ballroom – B2
Learn about best practices, incidences and causes, and review approaches to reduce the risk of post-colonoscopy colorectal cancer in clinical practice when Dr. Linda Rabeneck presents ACG’s J. Edward Berk Distinguished Lecture.

Dr. Linda Rabeneck, a gastroenterologist, clinician scientist, and health care executive, is Vice President, Prevention and Cancer Control at Cancer Care Ontario. She is a Professor of Medicine at the University of Toronto and Senior Scientist at the Institute for Clinical Evaluative Sciences also in Toronto. Dr. Rabeneck received her MD from the University of British Columbia (UBC), followed by post-graduate training in internal medicine and gastroenterology at UBC, and the University of Toronto. She received a Master’s degree in Public Health from Yale University, where she trained as a Robert Wood Johnson Clinical Scholar. Dr. Rabeneck, whose scholarly work focuses on the evaluation of health care and health system performance, is best known for her research on colorectal cancer screening. She has authored more than 400 peer-reviewed publications. She played a leadership role in the launch of ColonCancerCheck in Ontario, Canada’s first organized, province-wide colorectal cancer screening program. Dr. Rabeneck currently serves as Chair of the Colorectal Cancer Screening Committee of the World Endoscopy Organization (WEO) and is an Associate Editor of Gastroenterology. Dr. Rabeneck was elected Master of the ACG, received the ACG’s Berk/Fise Clinical Achievement Award, UBC’s Medical Alumni Association Wallace Wilson Leadership Award, and the AGA Clinical Practice Section’s Research Mentor Award. In 2017, she was elected President of the Canadian Academy of Health Sciences (CAHS).

The J. Edward Berk Distinguished Lecture is awarded to individuals prominent in gastroenterology or a related area. The lecturer is nominated by the ACG President and the appointment is subject to approval by the ACG Board of Trustees. The lectureship was established in recognition of the significant contributions made by J. Edward Berk, MD, MACG, to clinical gastroenterology during his long and distinguished clinical and academic career.

EMILY COURIC MEMORIAL LECTURE
Early Detection of Pancreatic Cancer: Problems, Promise, and Prospects
Suresh T. Chari, MD, FACC
Tuesday, October 29 | 4:30 pm – 5:00 pm | Stars at Night Ballroom – B2
Learn how to define “early” detection, recognize its benefits, and identify early detection barriers, when Dr. Suresh T. Chari presents the Emily Couric Memorial Lecture.

Dr. Chari trained in internal medicine and gastroenterology in India. He then completed the Alexander von Humboldt Fellowship in Mannheim, Germany. He then moved to the United States in 1993, where he completed a residency at the University of Arizona and a Fellowship in Gastroenterology at the Mayo Clinic, before joining the faculty at Mayo Rochester in 1999. He is currently Professor of Medicine, and Consultant in Gastroenterology and Hepatology, at Mayo Clinic in Rochester, where he has previously served as Director of the Pancreas Clinic. He is past Councilor and President of the American Pancreatic Association and International Association of Pancreatic Cancer, the Editor-in-Chief of Pancreatology, the journal of the International Association of Pancreatology. Since 2003, NIH has funded his work to study the relationship between diabetes and pancreatic cancer. Currently, he is the PI of Mayo Clinic’s U01 Consortium on the Study of Chronic Panreatitis, Diabetes and Pancreatic Cancer (CPDPC), a co-investigator in Pancreatic Cancer Detection Consortium (U01), and a member of the Steering Committee of the Early Detection Initiative, a collaborative effort among NCI, Pancreatic Cancer Action Network and CPDPC to launch an early detection protocol for pancreatic cancer. He co-leads the Diabetes-Pancreatic Cancer Working Group in the U01.

The Emily Couric Memorial Lecture, developed by the ACG, the Virginia Gastroenterological Society, and the Old Dominion Society of Gastroenterology Nurses and Associates, is in honor of Virginia State Senator Emily Couric, who died of pancreatic cancer in October of 2001. Senator Couric was a strong advocate for health care issues, particularly in her instrumental work to pass the nation’s first legislation mandating health insurance coverage for colorectal cancer screening.

DAVID Y. GRAHAM LECTURE
Mentoring Mentors
Stephen B. Hanauer, MD, FACC
Wednesday, October 30 | 10:20 am – 10:50 am | Stars at Night Ballroom – B2
Attend Dr. Stephen Hanauer’s ACG David Y. Graham Lecture, and gain a better understanding of mentoring towards leadership roles in gastroenterology.

Dr. Hanauer served as ACG President from 2014-2015. He completed a medical degree, with honors, at the University of Illinois in Chicago. His postdoctoral training included an internshipt and residency in internal medicine, as well as a fellowship in gastroenterology, at the University of Chicago. He served as the Joseph B. Kirsner Chair Professor of Medicine and was Chief of the Section of Gastroenterology, Hepatology and Nutrition from 2000-2014. Dr. Hanauer is currently the Medical Director of the Digestive Health Center at Northwestern Feinberg School of Medicine and the Clifford Joseph Barborka Professor of Medicine. He is Board certified in internal medicine and gastroenterology by the American Board of Internal Medicine and the American Board of Gastroenterology, respectively. He is a member of several professional societies and is a Fellow of the ACG, AGA, and the ACP. In connection with the ACG, he served as Chair for the Inflammation, Immunology, and Inflammatory Bowel Disease Section and the Clinical Practice Section, as well as being selected by the ACG as one of the top 1% of the nation’s leading experts in Gastroenterology. Dr. Hanauer is the Editor-in-Chief of Inflammatory Bowel Disease and serves as Associate Editor of Clinical Gastroenterology and Hepatology. He is an editorial board member for numerous journals, including The American Journal of Gastroenterology and Inflammatory Bowel Diseases.

The Graham Lecturer was chosen by the ACG President and is subject to approval by the ACG Board of Trustees. Established in 2004 in recognition of the many contributions to clinical gastroenterology made by David Y. Graham, MD, MACG, this named lectureship was made possible through a donation by Otsuka Pharmaceutical Co., Inc., and Merckley Diagnostics, Inc.

Clinical gastroenterology continues to experience an ever-increasing array of options and advancements affecting both the diagnosis and treatment of gastrointestinal (GI) disorders. Gastroenterologists must stay abreast of the diagnostic and treatment options that are available for managing their patients and effectively utilize them while maximizing quality and safety.

The multi-faceted pressures of new and increasing scientific developments, pressures from payors and policymakers, and demands by more knowledgeable patients mandate that gastroenterologists find ways to constantly reevaluate the diagnostic techniques and treatment modalities used and mechanisms for delivery in their practices. Declining reimbursement, increased demand for measurement of quality, and an insufficient workforce also remain significant challenges for gastroenterologists and their practices. As a consequence, it is important to identify more efficient ways to obtain the latest scientific knowledge and institute scientifically sound therapy so that the highest quality of patient care can be maintained. This objective, regardless of the specific practice setting, is to guarantee that each individual patient obtains the treatment and service that is the best possible option for their specific needs.

The emphasis of ACG’s educational efforts focuses on these advancements in diagnosis and treatment options, as well as on the policies, procedures, and guidelines gastroenterologists employ in the overall management of their practices. A primary CME educational program goal is to heighten the knowledge of clinicians and other health care professionals involved in GI patient care in all areas of management, with an emphasis on those conditions with increasing prevalence and those where management continues to present a challenge. Attention is also placed on advanced and improved endoscopic techniques and practice management tools that can increase gastroenterologists’ efficiency and effectiveness in their daily practice.

**COLON CANCER SCREENING**

Colorectal cancer is the third most commonly diagnosed cancer among both men and women. Colon cancer incidence rates have declined over the last two decades and survival rates have increased. This likely relates at least in part to increased colorectal cancer screening and surveillance, which allows physicians to detect and remove pre-cancerous polyps or diagnose cancers at an early stage. Although these trends are moving in a positive direction, there remains a need to increase the number of individuals being screened.

The proper and timely use of existing as well as newer screening tests that may lead to prevention or early diagnosis of specific disease conditions is critical. Increasing the rate of patient participation in colorectal cancer screening and surveillance is also important. Furthermore, providing and quantifying indicators that define a quality colonoscopy, including bowel preparation quality and adenoma detection rates, especially in light of recent findings on the prevalence of flat lesions, is a need that affects gastroenterologists. In addition, it is important that gastroenterologists understand the importance of grading bowel preparation using a validated scale, and that they are familiar with recommendations for the timing of a repeat colonoscopy in exams with inadequate bowel preparation.

There is also a need to recognize the potential role that the gastroenterologist plays in minimizing the occurrence of interval cancers. This includes the use of split-dose preparation in their practice as well as the use of proper polyp resection technique. The serrated pathway, which may account for at least 15% of all colorectal cancers, requires gastroenterologists to understand the challenges in detection, resection, and pathological interpretation and classification of these lesions. To aid in surveillance of serrated polyps, gastroenterologists should be aware of an expert panel’s recent recommendations: Guidelines for Colonoscopy Surveillance After Screening and Polypectomy: A Consensus Update by the US Multi-Society Task Force on Colorectal Cancer. There has also been a recent update to the surveillance guidelines that includes the addition of recommendations for certain serrated polyps.

There is also a need to educate the gastroenterologist on the recent published data that help support recommendations of previous versions of surveillance guidelines. This will hopefully serve to increase physician adherence to the guidelines. As the survival rates from these GI cancers continue to improve, the must continue educating gastroenterologists who provide ongoing care to these patients. This important and evolving educational need must be met in a way that touches on the impact of various forms of cancer on the overall health and quality of life of these patients.

**OBESITY**

Obesity has drastically increased in prevalence in the United States, from less than 15% in the 1960s to over 30% at present. It has been predicted that if the rates continue at their current pace, by 2015, 75% of adults will be overweight or obese. Therefore, not only is it imperative for gastroenterologists to be knowledgeable regarding obesity prevention and treatment options, but it is also important that they understand the importance of patient education. Patient education is a necessity to improve compliance and to achieve desired treatment results. In those patients who undergo surgery for the management of obesity, information on the post-surgical complications has become increasingly important. Specifically, endoscopic techniques and management options in these patients can be a challenge. It is essential that gastroenterologists be familiar and up-to-date on endoscopic techniques in this challenging group of patients. These topics, as well as the latest information on what GI conditions are linked to or exacerbated by obesity, have been requested as areas of further education by practicing gastroenterologists.

**IBD**

Inflammatory bowel disease is an area of gastroenterology that continues to see important developments in diagnostic and medical therapeutic options. The gastroenterologist must be fully aware of the latest developments in biologic and immunomodulator therapies including safety considerations and their place in patient management. In recent years there have also been many advances made in laboratory, radiographic, and endoscopic modalities that directly impact the diagnosis and management of inflammatory bowel disease and in the surveillance for dysplasia in ulcerative colitis and Crohn’s colitis. Education regarding optimizing the use of such modalities is important to the practicing gastroenterologist. The post-surgical management of inflammatory bowel disease patients also continues to be a topic of great importance and one in which the clinician often faces challenges due to the complexity and unpredictability of the condition and the associated decision-making process.

**HEPATOLOGY**

Gastroenterologists are frequently faced with challenges related to liver disorders including hepatitis B and C, NAFLD, hepatic encephalopathy, cirrhosis, and autoimmune liver diseases. Often, the gastroenterologist relies on the expertise of the hepatologist to assist in the management of these patients; however, with hepatologists operating at capacity, the gastroenterologist must be able to offer the best quality of care and treatment options to patients with liver disease. With the increased incidence of NAFLD, practical and clinically relevant physician education is extremely important in this area.

**HEPATITIS C**

Hepatitis C will be the most dramatically changing area of liver disease over the next few years, and there will be two major areas that will require focus and attention. First, HCV screening recommendations have shifted from the classic risk-based screening to an age-based screening. The CDC and USPSTF have recommended one-time screening of all persons born between 1945 and 1965. It will be essential that ACG and gastroenterologists educate primary care providers as well as patients about the need for HCV screening. Secondly, there has been a dramatic shift in the treatment of hepatitis C. Compared to the previous treatments, the current treatment regimens are dramatically more effective and have shorter lengths of therapy, and have dramatically
fewer adverse side effects. Also, within the next 1-2 years, therapy will likely be completely all-oral, interferon-free, and perhaps even ribavirin-free. There will be a series of new regimens available, with new ones being introduced at a very rapid pace. Because there will be simple and effective therapies available, there will likely be more gastroenterologists who are willing to treat HCV. For this reason, ACG must work to educate gastroenterologists about the current and upcoming treatments. Also, with the expected rapid development and approval of multiple regimens, ACG must work to have a mechanism in place to allow rapid changes and/or addendums to HCV treatment guidelines.

**FUNCTIONAL GI**

Improvements in the understanding of the pathogenesis and treatment of motility and functional GI disorders continue to progress as research in this area expands. These disorders are among the most common GI disorders in the general population. Understanding the latest science with regard to these disorders and newer treatment modalities is critical to improving clinical outcomes and quality of life for a large group of patients who have been among the most difficult to treat. Understanding the potential role of enteric microbiota and inflammation in these disorders will also help determine the appropriate course of action and play a critical role in managing these challenging conditions.

Diarrheal disorders can prove to be challenging to diagnose and manage. Whether it be acute or chronic, caused by a malabsorptive condition, inflammatory, or infectious process, gastroenterologists must be aware of the various potential causes of diarrhea and the most appropriate corresponding treatment options. With the incidence and severity of *Clostridium difficile* infections increasing in recent years, this is yet another condition that demands close attention by the gastroenterologist.

**GI BLEEDING**

GI bleeding remains one of the most common yet most challenging issues confronted by the clinical gastroenterologist. New anticoagulants have been released in the last several years, and this new class of drugs has made patients with GI bleeding even more difficult to treat. It is critical that gastroenterologists are frequently updated on these new medications as these patients may require different management strategies than those who are on traditional anticoagulants. As endoscopic technology advances, patients are simultaneously becoming more complex, making it essential that gastroenterologists are up-to-date on these management techniques and strategies. Education on the diagnosis and management of various forms of pancreaticobiliary disease including pancreatitis, pancreatic cysts, pancreatic cancer, and biliary disorders is critical to obtaining the best patient outcomes.

**ENDOSCOPY**

Rapid technological advancements in endoscopy and other diagnostic and therapeutic areas in gastroenterology creates a need to communicate the latest techniques and strategies for managing everything from patients with altered anatomy to identification and removal of large and difficult polyps to developing practice of natural orifice transluminal endoscopic surgery. Gastroenterologists in a variety of practice settings need to learn and integrate these new therapies into their practice in order to provide state-of-the-art services to their patients.

**QUALITY**

Finally, it is critical that gastroenterologists incorporate quality, safety, and service metrics into their clinical practice. In particular, quality and safety issues in the endoscopy suite need to be addressed in order to improve patient outcomes. Other quality issues dealing with specific disease states and their management in the office practice also need to be addressed by the practicing gastroenterologist. Practice efficiency is also of great importance as the demand for increased efficiency across all settings continues to drive the search for practical tools to positively impact care delivery and patient outcomes. Through the use of evidence-based approaches for treatment and rational public health policy, clinicians need to identify new and innovative ways to deliver care across the community. Ever-expanding access to information on a real-time basis by both clinicians and patients provides unique opportunities as well as challenges to the healthcare delivery system. When this is combined with the pressures associated with increased spending on healthcare in an environment currently trending toward decreased reimbursements and inadequate rewards for the physician who spends more time with the patient, the importance of high-quality continuing medical education for gastroenterologists and their patients cannot be overstated.

**FACULTY DISCLOSURES**

The American College of Gastroenterology (ACG) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. ACG, as an ACCME accredited provider, ensures balance, independence, objectivity, and scientific rigor in all of its directly and jointly provided education activities. All who are in a position to control the content of an education activity (including their spouse or partner) are required to disclose to ACG all relevant financial relationships in any amount occurring in the past 12 months with any commercial interest that may create a conflict of interest related to the subject matter of an education activity. Safeguards against commercial bias have been put in place by ACG. Anyone who refuses to disclose relevant financial relationships will be disqualified. ACG ensures any conflicts of interest are resolved before the educational activity occurs and discloses all relevant financial relationships to the learners prior to the beginning of an education activity.
Three-Day Clinical Review

Your Comprehensive Clinical Update

If you are looking for a comprehensive clinical review and don’t want to spend too much time away from the office, attend ACG’s Three-Day Clinical Review. The Three-Day Clinical Review includes the GI Pathophysiology Course and the What’s New in GI Pharmacology Course on Friday, plus the popular weekend Postgraduate Course. Leading experts in the subspecialties will delve deeper into topics of interest to you and address the common and not-so-common GI disorders you encounter in practice.

FRIDAY, OCTOBER 25, 2019
(Day 1 - Morning)
GI Pathophysiology Course

Gain a better understanding of gastrointestinal disease processes and their impact on clinical presentation of patients when you attend the GI Pathophysiology Course. Experts will review the underlying causes and clinical implications of commonly encountered diseases seen in practice. Apply concepts to care when you attend the GI Pathophysiology Course. This half-day course will illustrate the mechanisms behind novel diagnostic strategies, help to formulate a plan using appropriate testing methodologies, and offer practical implementation strategies.

FRIDAY, OCTOBER 25, 2019
(Day 1 - Afternoon)
What’s New in GI Pharmacology Course

Attend the What’s New in GI Pharmacology Course for an intensive review of key GI pharmacology, including comparisons and contrasts between conventional and emerging pharmacological treatment options.

SATURDAY, OCTOBER 26 – SUNDAY, OCTOBER 27, 2019
(Days 2 and 3 - All Day)
Postgraduate Course

Attend “Practicing State-of-the-Art Gastroenterology in 2019” and leave with practical take-away points that you can implement in practice. Learn better ways to integrate the newest tools in diagnosis with the latest therapeutic/treatment alternatives to achieve optimal outcomes, improve your awareness and ability to incorporate patient care decision-making issues relating to common and not-so-common GI patient conditions, and enhance your overall capacity to frame effective disease management strategies in your practice.

YOUR REGISTRATION INCLUDES

- Two-Day Postgraduate Course
- What’s New in GI Pharmacology Course
- GI Pathophysiology Course
- Self-Assessment Test PRINTED BOOK with 300 questions, plus comprehensive, annotated answers!
- Access to the slide sets for all presentations with the ACG 2019 meeting app
- Up to 22.25 hours of CME credit and MOC, plus an additional 35 hours of CME and MOC for successful completion of the Self-Assessment Test!

GI PATHOPHYSIOLOGY COURSE

Friday, October 25, 2019 | 7:00 am - 12:30 pm | Stars at Night Ballroom - B2

Course Directors: Darwin L. Conwell, MD, MS, FACG, and Ikuo Hirano, MD, FACG

COURSE DESCRIPTION

Gain a better understanding of gastrointestinal disease processes and their impact on clinical presentation of patients when you attend the GI Pathophysiology Course. Experts will review the underlying causes and clinical implications of commonly encountered diseases seen in practice.

The course includes discussion of functional genomics, physiologic testing to manage esophageal disorders, celiac disease, biologic therapies for IBD, molecular and genetic testing for colon polyps/cancer, therapeutic approaches to NAFLD, and managing refractory constipation. Lecture presentations will be followed by interactive question and answer sessions. The discussions will be clinically based and will offer points on how to better help patients with difficult-to-manage disease processes. The course faculty are recognized experts in their fields and pioneers in better understanding of the disease processes in gastroenterology. The course is designed primarily for clinicians in GI/hepatology, as well as pharmacist assistants, nurse practitioners, and other advanced practice healthcare professionals interested in the clinical application of GI pathophysiology. Register for the course separately or as part of the Three-Day Clinical Review (see page 17).

ACCREDITATION / CME / MOC

The American College of Gastroenterology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American College of Gastroenterology designates this live activity for a maximum of 5.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 5.25 MOC points in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider’s responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

COURSE AGENDA

7:00 am Welcome and Introductions
Darwin L. Conwell, MD, MS, FACG, and Ikuo Hirano, MD, FACG

7:05 am Functional Genomics and Precision Medicine: What Every Gastroenterologist Should Know
David C. Whitcomb, MD, PhD, FACG
Discuss how to use functional genomics and precision medicine to improve patient care and outcomes in gastrointestinal disorders.

7:45 am Interpretation and Therapeutic Implications of Physiologic Testing in the Management of Esophageal Disorders
Ikuo Hirano, MD, FACG
Identify the pearls and pitfalls in the use of motility, impedance, impedance planimetry, and pH testing in the assessment of patients with esophageal disorders.

8:25 am Celiac Disease: Novel Therapeutic Approaches Beyond Gluten Withdrawal
Peter H. R. Green, MD, FACG
Explain the mechanisms behind novel diagnostic strategies and pharmacologic approaches for patients with celiac disease.

9:05 am Scientific Basis of Novel Immunologic Approaches to IBD
Anita Afzali, MD, MPH, FACG
Apply concepts regarding the immunologic basis of novel biologic therapies to the management of IBD.

9:45 am Q & A

10:00 am Break

10:15 am How to Apply Molecular and Genetic Testing to Colon Polyps and Cancer Management
Elena M. Stoffel, MD, MPH
Formulate an approach to the use of molecular and genetic testing in the evaluation and management of colon polyps and cancer.

10:55 am Physiologic Basis of Current and Future Approaches to Non-Alcoholic Fatty Liver Disease
Zobair M. Younossi, MD, MPH, FACG
Develop a conceptual framework for the appropriate utilization of novel therapeutics for fatty liver diseases.

11:35 am Mechanistic Underpinnings for the Management of Refractory Constipation
Darren M. Brenner, MD
Apply concepts regarding the physiologic basis of constipation to inform therapeutic decisions for patients with refractory constipation.

12:15 pm Q & A

12:30 pm GI Pathophysiology Course Adjourns

WHAT’S NEW IN GI PHARMACOLOGY COURSE
Friday, October 25, 2019 | 1:45 pm - 5:15 pm | Stars at Night Ballroom - B2
Course Directors: Brooks D. Cash, MD, FACC, and William D. Chey, MD, FACC

COURSE DESCRIPTION
Experts will define and describe the use and management of new pharmacological therapies as well as provide updates on current pharmacological treatment options for a variety of GI disorders during the What’s New in GI Pharmacology Course. Register for the course separately or as part of the Three-Day Clinical Review (see page 17).

ACCREDITATION / CME / MOC
The American College of Gastroenterology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American College of Gastroenterology designates this live activity for a maximum of 3.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 3.25 MOC points in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider’s responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

COURSE AGENDA
1:45 pm Welcome and Introductions
Brooks D. Cash, MD, FACC, and William D. Chey, MD, FACC

1:50 pm New Concepts in the Treatment of Eosinophilic Esophagitis
Evan S. Dellon, MD, MPH, FACC
Review recent updates in the epidemiology, nomenclature, diagnostic processes, and management of eosinophilic esophagitis.

2:10 pm Jump-Starting Gastroparesis
Michael Camilleri, MD, FACC
Discuss the diagnosis of gastroparesis in a variety of clinical scenarios, and review current and emerging pharmacologic options for the management of gastroparesis symptoms.

2:30 pm Primary and Salvage Therapies for H. pylori
William D. Chey, MD, FACC
Describe the recently-updated ACG guidelines for the management of H. pylori-related disease and review current therapeutic approaches to H. pylori eradication.

2:50 pm Gastroprotection and the Renaissance of Peptic Ulcer Bleeding: Who Needs It and Who Doesn’t
John R. Saltzman, MD, FACC
Identify the evidence for and against the use of gastrointestinal prophylaxis for peptic ulcer disease in patients with systemic disease associated with increased risk of gastrointestinal complications.

3:10 pm Q & A

3:25 pm Break

3:40 pm Contemporary Approach to SIBO and Bloating
Linda Anh B. Nguyen, MD
Discuss current and emerging diagnostic and treatment options for small intestinal bacterial overgrowth and bloating.

4:00 pm Medical Therapies for Crohn’s Disease: What to Start With and When to Change
Millie D. Long, MD, MPH, FACC
Describe the evidence for when to employ different medical therapies available for Crohn’s disease and review algorithms for altering medical management when necessary.

4:20 pm Autoimmune Hepatitis: When to Move Beyond Steroids
Steven L. Flamm, MD, FACC
Review the diagnostic varieties for AIH and provide recommendations for appropriate medical approaches for the various AIH forms.

4:40 pm How and When to Use Neuromodulators for Functional Upper and Lower GI Syndromes
Brooks D. Cash, MD, FACC
Discuss the rationale, evidence, and outcomes associated with neuromodulators for patients with functional dyspepsia, non-cardiac chest pain, and irritable bowel syndrome.

5:00 pm Q & A

5:15 pm What's New in GI Pharmacology Course Adjourns

ROADMAP FOR A SUCCESSFUL COMMUNITY OR ACADEMIC GI PRACTICE COURSE: RAMP-UP YOUR PRACTICE, SUPER-CHARGE YOUR STAFF
Friday, October 25, 2019 | 7:30 am – 5:00 pm | Room 301 (Ballroom Level)
Course Directors: Jay N. Yepuri, MD, MS, FACG, and Harish K. Gagneja, MD, FACG

COURSE DESCRIPTION
Join ACG in 2019 for our newly re-imagined Practice Management-style course, “Roadmap for a Successful Community or Academic GI Practice Course - Ramp-Up Your Practice, Super-Charge Your Staff!” Healthcare delivery is transforming at an accelerating rate, but opportunities in the field of gastroenterology remain strong for private practice physicians to claim ownership of their practices and their careers. Managing challenges to independence will be even more important during these changing times, but that alone will not be enough for success. Participants in the 2019 Roadmap for a Successful Community or Academic GI Practice Course will hear from colleagues about new and innovative ways to improve the operations, enhance productivity, and guarantee success of their practices.

ACCREDITATION / CME / MOC
The American College of Gastroenterology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American College of Gastroenterology designates this live activity for a maximum of 8.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 8.5 MOC points in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider’s responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

COURSE AGENDA
6:30 am Continental Breakfast
7:30 am Welcome and Announcements
   Jay N. Yepuri, MD, MS, FACG, and Harish K. Gagneja, MD, FACG

SESSION 1: Critical Aspects of Contemporary GI Practice
   Moderator: Jay N. Yepuri, MD, MS, FACG
    7:40 am Status Update: ABIM, MOC, and Beyond
       Sunanda V. Kane, MD, MSPH, FACG
       Discuss the latest requirements and pathways for ABIM Board Certification status and Maintenance of Certification as well alternatives for Board Certification.

    8:00 am How to Legally Structure an Anesthesiology Provider Agreement for Your Endoscopy Center
       Ann M. Bittinger, JD
       Describe important legal considerations when structuring an anesthesiology provider agreement for your endoscopy center.

8:20 am Social Media in Gastroenterology: The Hashtag is Here to Stay...Avoid Trouble!
   Richard E. Moses, DO, JD, FACG
   Identify key legal issues surrounding the use of social media in medical practice.

8:40 am Q & A

SESSION 2: Making Your Mark – Taking Your Organization to the Next Level
   Moderator: Harish K. Gagneja, MD, FACG

    9:00 am Quick Tidbit #1

    9:05 am Getting Started on Social Media: Everything You Need to Know to Join the Conversation
       Sophie M. Balzora, MD, FACG
       Discuss “Social Media: 101,” an introduction for GI practices and providers.

    9:25 am Marketing and Branding in the Era of Social Media
       Diane Baker
       Describe strategies for using social media to effectively establish your brand and market your organization.

    9:45 am The “Lesser Known” Ancillaries – Still a Good Opportunity?
       Harry E. Sarles, Jr., MD, FACG
       Examine the clinical and economic rationale for ancillaries such as research division, infusion centers, diagnostic services, and data mining.

10:05 am Q & A
10:25 am Break

SESSION 3: Leadership, Administration, and Structure
   Moderator: Jay N. Yepuri, MD, MS, FACG

    10:45 am Quick Tidbit

    10:50 am Succession Planning for Your Organization
       Joseph J. Vicari, MD, MBA
       Provide best practice-based guidance on how your organization can best transition its leadership.

    11:10 am How Do I Hire Good Staff?
       Tania Bolla, CMPE
       Review best practices for recruiting and hiring good staff, with recommendations on how to handle HR, benefits, and compensation decisions for your new hires.

    11:30 am APM Guidance: “How To” When Negotiating a Bundled Payment Plan
       Ralph D. McKibbin, MD, FACG
       Provide a framework for developing and negotiating a bundled payment plan focusing on the traditional lump-sum bundle and the shared-savings bundle models.

11:50 am Q & A
12:10 pm Break / Pick-up Box Lunches
FRIDAY COURSES
Friday, October 25, 2019

12:30 pm Luncheon Presentation:
The Taxonomy of GI Practice in 2019
Moderator: Jay N. Yepuri, MD, MS, FACG
Panelists: James S. Leavitt, MD, FACC; Neal R. Patel, MD; Jason Porter, MBA; Michael L. Weinstein, MD; and Louis J. Wilson, MD, FACC
Discuss current models of GI Practice in the U.S. along with an analysis of private equity’s entrance into the GI practice space.

Session 4: Strategic Practice Initiatives – How Can We Do Things Better?
Moderator: Harish K. Gagneja, MD, FACG

1:10 pm Quick Tidbit

1:15 pm Getting Your Patient the Medication You Prescribed: Tips and Tricks
David Choi, MD, PharmD, BCACP
Adapt a methodical approach to obtaining pre-authorizations and appealing denials for pharmaceutical therapies.

1:35 pm Centers of Excellence in GI Practice – Developing a Team Based Approach to Care
Corey A. Siegel, MD, MS
Discuss the center of excellence model in IBD and its application to other chronic disease states including GERD and chronic liver disease.

1:55 pm Effective Leadership, Impactful Networking, and the Importance of Being an Original
David J. Hass, MD, FACC
Discuss the importance of adaptability as a leader and the importance of networking as a means of reciprocal problem solving in order to help complex organizations succeed in their clinical missions.

ASGE ENDOSCOPY COURSE
An Endoscopist’s GPS: Navigating Innovations and Evolving Guidelines
Friday, October 25, 2019 | 7:30 am – 4:30 pm | Stars at Night Ballroom - B4
Course Directors: Amrita Sethi, MD, FASGE and Tyler Stevens, MD, FASGE, FACG

COURSE DESCRIPTION
Join ASGE’s esteemed faculty who will review and highlight a number of emerging diagnostic and therapeutic endoscopic techniques in the literature and their implications in clinical practice. Key discussions will begin with Barrett’s surveillance and ablation, reviewing several societal guidelines that include a 2016 guideline from the American College of Gastroenterology (ACG), 2012 and 2018 guidelines from the American Society of Gastrointestinal Endoscopy (ASGE) and a 2011 guideline and 2016 expert review from the American Gastroenterological Association (AGA). Faculty will then discuss ESD versus EMR for polyps with EMR being the most commonly used technique for resection of large distal colorectal adenomas yet there are some important limitations. This will be compared to endoscopic submucosal dissection (ESD), which is more technically difficult, resulting in longer procedural time. However, ESD is promising due to the high en-bloc resection rates and the very low recurrence rates. Presentations will highlight long-term recurrence rates, healthcare resource utilization and costs along with perceived quality of life among patients. Additional topics will focus on duodenal cancer, specifically as this is the most common cause of death in familial adenomatous polyposis. This will be followed by a review of the revised Atlanta classification system and how this facilitates standardized reporting of clinical and imaging data as well as objective assessment of treatment, fostering effective communication among the clinical team.

Discussions will include clinical assessment and management of acute pancreatitis and clarification of appropriate terms for peripancreatic fluid collections, pancreatic and peripancreatic necrosis and their changes over time. And if you are looking for more topics, faculty will discuss emerging endoscopic diagnostics and therapeutics for pancreaticobiliary neoplasmia. As pancreaticobiliary carcinomas require careful correlation of clinical presentation, gross pathology and histopathologic findings are needed to distinguish pancreatic neoplasms from each other and from extrapancreatic tumors. Our program is designed to engage the audience with faculty through audience response along with questions, answers and discussion. Attendees are encouraged to enjoy lunch with the speakers and engage in conversations about challenging cases and techniques. We look forward to seeing you in San Antonio!

ACCREDITATION / CME / MOC
The American Society for Gastrointestinal Endoscopy (ASGE) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

ASGE designates this live activity for a maximum of 7.5 AMA PRA Category 1 Credits™. Physicians should claim only credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 7.5 MOC points in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider’s responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

Upon completion of this educational activity, physicians will be able to:
- Recognize current standards for diagnosing and reporting Barrett’s esophagus
- Identify current and new techniques for detecting upper and lower GI neoplasia
- Describe techniques for management of pancreatic fluid collections arising in acute pancreatitis
- Recognize new approaches for treating biliary neoplasmia
- Identify new endoscopic therapies for GI bleeding

PROGRAM DESCRIPTION
With the need to remain abreast of the many new and emerging advancements in the field of gastroenterology and the patient volume increasing as the population ages, the clinical gastroenterologist is more challenged than ever to deliver the best patient care in each situation they encounter. Research across gastroenterology and hepatology areas progresses at a rapid pace. Advances in technology, diagnostic modalities, and therapeutic options have had a positive impact on the management of many GI diseases. Scientific education, based on critical foundational knowledge and clinical skills, the communication of practical methods for treatment, and the ability to integrate the newest tools in diagnosis with the latest therapeutic/treatment options, are key necessities for the GI clinician to deliver top-quality patient care. This course will provide updates on a variety of gastroenterology and hepatology subjects including IBD therapy, quality in colorectal cancer screening, functional GI disorders, esophageal disorders, pancreaticobiliary disease, and liver disease. Expert faculty will deliver scientific presentations in a variety of formats. Didactic lectures, followed by interactive question and answer sessions, small group learning luncheons, and a choice of simultaneous sessions on the latest topics in GI and liver clinical care will be offered.

The program is designed primarily for clinicians in GI/hepatology, as well as physician assistants, nurse practitioners, and other advanced practice providers interested in a scientifically sound approach to the management of GI and liver illnesses.

   Explain the role of alternative models of care, such as the medical home, for the management of inflammatory bowel disease. See page 15 for more information.

SESSION 1B: Quality in Colorectal Cancer Screening
⚫ Stars at Night Ballroom

10:30 am Genetic Testing for Colorectal Cancer
   Carol A. Burke, MD, FACP
   Describe current management guidelines with regard to genetic testing for colorectal cancer.

10:50 am Quality Colonoscopy in 2019
   Douglas K. Rex, MD, MACG
   Demonstrate practical techniques during colonoscopy, which provide the highest quality exam.

11:10 am Approach to Serrated Polyps and Polyposis Syndrome
   John M. Carethers, MD, FACP
   Distinguish the unique approach to removing serrated polyps and how it contrasts with recommendations for adenomatous polyps.

11:30 am Non-Endoscopic CRC Screening Tests in 2019
   Aasma Shaukat, MD, MPH, FACP
   Identify the non-endoscopic CRC screening tests that are relevant to the practicing gastroenterologist.

11:50 am Panel Q & A
12:10 pm Break for Learning Luncheons
1. Medical Marijuana – Weeding Out the Good From the Bad
   David J. Haas, MD, FACP
   Discuss the indications and evidence for the use of medical cannabis in treating GI disease.

2. Post-ERCP Pancreatitis – Can We Trend to Nil?
   Timothy B. Gardner, MD, MS, FACP
   Evaluate the techniques to help prevent post-ERCP pancreatitis.

3. Effectively Treating Hemorrhoids in an Office-Based Practice
   Harry E. Sarles, Jr., MD, FACP
   Describe the gastroenterologist-directed treatment of hemorrhoids.

4. The Difficult Patient With Chronic Diarrhea
   Lawrence R. Schiller, MD, MACG
   Detail the evaluation and management strategies for treating patients with chronic, non-infectious diarrhea.

5. Update on Fecal Transplant in 2019
   Amy E. Barto, MD
   Explain the current status of fecal transplant in the GI patient population.

6. Public Policy Update 2019
   Jeffrey L. Nestler, MD, FACP
   Outline the current status of reimbursement for endoscopic procedures.

7. IBD In Pregnancy
   Lisa B. Malter, MD, FACP
   Apply current management strategies for the pregnant patient with IBD.

8. Evaluation and Management of the Patient With Refractory Celiac Disease
   Peter H. R. Green, MD, FACP
   Discuss management strategies for patients with refractory celiac disease.

9. Colonoscopy at Age 45 – What’s the Evidence?
   Joseph C. Anderson, MD, MHICCS, FACP
   Detail the latest guidelines with regard to early CRC screening.

    Arun J. Sanjayal, MD
    Summarize current management strategies of steatohepatitis.

11. ERCP Cannulation: Tips and Techniques
    Laith H. Jamil, MD, FACP
    Assess practical techniques to improve successful cannulation rates.

12. Do Cool Colonoscopy Gadgets Really Increase Your ADR?
    Seth A. Gross, MD, FACP
    Interpret the evidence behind new devices to promote improved adenoma detection rates.

10:20 am Medical and Surgical Management of NASH
Mark W. Russo, MD, MPH, FACG
Assess the current standard of care of patients with NASH.

10:40 am Management of Portal Hypertension
Suthat Liangpunsakul, MD, MPH, FACG
Interpret the critical clinical pearls in the management of portal hypertension.

11:00 am Hepatitis B in 2019
Norah A. Terrault, MD, MPH, FACG
Differentiate the principles of management for hepatitis B patients in 2019.

11:20 am Liver Masses 101
Fasiha Kanwal, MD, MSHS
Summarize the approach to management of liver masses.

11:40 am Panel Q & A

12:00 pm Break for Learning Luncheons

SUNDAY OPTIONAL LEARNING LUNCHEONS – Choose from 12
12:20 pm – 1:35 pm
(You must register separately for learning lunches during the registration process.)

13. Tips and Tricks for Improving the Quality of Your Colonoscopy
   Douglas K. Rex, MD, MACG
   Describe endoscopic techniques to improve adenoma detection rates in your practice.

14. How to Set Up Your Practice for MACRA and MIPS Reporting
   Irving M. Pike, MD, FACG
   Discuss the current requirements for MACRA and MIPS reporting.

15. Management of Acute Liver Failure
   Christina C. Lindenmeyer, MD
   Describe medical therapies and indications for transplant in acute liver failure.

16. Endoscopic Assessment of Trainees
   Renee L. Williams, MD, MHPE, FACG
   Compare validated tools to assess endoscopic competence in trainees.

17. Update on the Management of Gastric Intestinal Metaplasia
   Paul Moayyedi, MB ChB, PhD, MPH, FACG
   Identify guidelines and indications for gastric cancer screening in patients with intestinal metaplasia.

18. Non-FAP Hereditary Colorectal Cancers
   John M. Carethers, MD, FACG
   Evaluate criteria and diagnosis of non-FAP hereditary CRC and screening strategies.

19. The Difficult Foreign Body
   Neil H. Stollman, MD, FACG
   Utilize tips and tricks to improve foreign body removal.

20. Refractory GERD in the Post-Bariatric Patient
   Kenneth R. DeVault, MD, FACG
   Identify management strategies for refractory GERD in the post-bariatric patient.

21. Embracing Telehealth in Your Clinical Practice
   Corey A. Siegel, MD, MS
   Describe how to use telehealth effectively in your practice.

22. Evaluation and Therapy of Chronic Nausea and Vomiting
   Brian E. Lacy, MD, PhD, FACG
   Define evaluation and management strategies for the treatment of nausea and vomiting.

23. Newer Therapies for Management of Varices
   David A. Greenwald, MD, FACG
   Detail the newer therapies for the management of variceal bleeding.

24. Managing the Post-Liver Transplant Patient
   Paul Y. Kwo, MD, FACG
   Summarize important considerations including medication monitoring in the post-liver transplant patient.

1:35 pm Break

SIMULTANEOUS SYMPOSIA
1:45 pm – 3:00 pm

SYMPOSIUM D: All Things GI Bleeding

1:45 pm Management of Peri-Procedural Anticoagulation
   Neema S. Abraham, MD, MSc (Epid), FACG
   Illustrate the important considerations when determining the management of peri-procedural anticoagulation.
2:05 pm  Approach to the Obscure/Occult GI Bleeding  
Brennan M. Spiegel, MD, MSHS, FACG  
Describe the management strategies for patients with obscure GI bleeding.

2:25 pm  Newer Technologies for Non-Variceal Bleeding  
Alan N. Barkun, MD, CM, MSc (Clin Epi), FACG  
Compare the newer techniques and therapies to control non-variceal bleeding.

2:45 pm  Panel Q & A

SYMPOSIUM E: Challenges in the Stomach and Small Bowel  
Stars at Night Ballroom - B4  
Moderator: Amy S. Oxentenko, MD, FACG

1:45 pm  Malabsorption Syndromes and the Small Bowel  
Amy S. Oxentenko, MD, FACG  
Identify and treat relevant small bowel malabsorption syndromes.

2:05 pm  Management of Gastric Polyps  
Douglas G. Adler, MD, FACG  
Summarize the current management and treatment of gastric polyps.

2:25 pm  Non-Celiac Gluten Sensitivity  
William D. Chey, MD, FACG  
Discuss the entity of non-celiac gluten sensitivity.

2:45 pm  Panel Q & A

SYMPOSIUM F: All Things Motility  
Stars at Night Ballroom - B2  
Moderator: Felice Schnoll-Sussman, MD, FACG

1:45 pm  GERD and Dysmotility: Defining the Relationship  
Philip O. Katz, MD, MACG  
Illustrate and define the implications of the relationship between GERD and dysmotility.

2:05 pm  New Technologies in the Diagnosis of Motility Disorders  
Felice Schnoll-Sussman, MD, FACG  
Interpret the latest clinical technologies to help diagnose motility disorders.

2:25 pm  Pharmacologic Therapy for Motility Disorders  
Brian E. Lacy, MD, PhD, FACG  
Describe the common medications to treat motility disorders.

2:45 pm  Panel Q & A

ANNUAL SCIENTIFIC MEETING
Monday through Wednesday, October 28-30, 2019

The Annual Scientific Meeting is FREE for ACG members!

PROGRAM DESCRIPTION

Gain insight from the experts, learn practical take-home points, and network with your colleagues when you attend the ACG Annual Scientific Meeting. Throughout the Scientific Meeting, faculty will present the latest in GI and hepatology, and how to incorporate findings into patient care. Hear about the latest clinical research during the free papers/oral presentation plenary sessions. In addition, there will be several featured lectures by world-renowned experts that delve into deeper discussion on a specific topic.

Thirteen scientific symposia and over 65 oral abstract presentations will allow attendees to hear lecture presentations from experts and to participate in interactive question and answer sessions with the faculty.

In addition, 15 optional scientific breakfast sessions will be offered, where a smaller setting allows for heightened interaction with the speakers and greater audience involvement.

Finally, ACG’s 7th Annual Endoscopy Video Forum will feature the best video presentations submitted from colleagues from across the U.S. and around the world.

The Annual Scientific Meeting program is designed primarily for physicians in gastroenterology and hepatology, as well as physician assistants, nurse practitioners, and other advanced practice healthcare professionals interested in the latest information on state-of-the-art treatment of these illnesses.

MONDAY, OCTOBER 28, 2019 | 6:45 AM - 6:30 PM

6:00 am – 5:00 pm REGISTRATION OPENS

OPTIONAL BREAKFAST SESSIONS – Choose from 6
6:30 am – 7:45 am
(You must register and pay separately for breakfast sessions during the registration process.)

BREAKFAST A: IBD at the Extremes: From Babies to Boomers
Moderator: Christina Y. Ha, MD, FACP

- Preconception to Pregnancy
  Eugenia Shmidt, MD
  Emphasize the importance of pre-, peri-, and postpartum care for women with IBD.

- Transitions of Care
  Jill K. J. Gaidos, MD, FACP
  Propose strategies for seamless transition from pediatric to adult GI care.

- The Older Patient
  Christina Y. Ha, MD, FACP
  Distinguish the additional needs of older patients living with IBD.

BREAKFAST B: Anorectal Disorders
Moderator: Lawrence J. Brandt, MD, MACG

- I Am Itching to Show and Tell: Benign and Malignant Anorectal Lesions
  Lawrence J. Brandt, MD, MACG
  Recognize various benign and malignant anorectal pathologies.

- Taking on Hemorrhoids: Things to Consider
  Harry E. Sarles, Jr., MD, FACP
  Identify and describe various options available to treat hemorrhoidal disease.

- Management of Anorectal POOPouri: Pruritus, Proctalgia, Seepage, and Perianal Dermatitis
  Satish S.C. Rao, MD, PhD, FACP
  Describe various treatment options for common perianal symptoms.

BREAKFAST C: Challenges in ERCP
Moderator: Prabhleen Chahal, MD, FACP

- Evaluation and Management of Hilar Obstruction
  Prabhleen Chahal, MD, FACP
  Outline new paradigms in the management of hilar biliary obstruction.

- Approach to the Difficult ERCP
  Vivek Kaul, MD, FACP
  Explain how to approach and manage difficult ERCP scenarios.

- Quality Indicators in ERCP
  Patrick S. Yachinski, MD, MPH
  Identify best practice principles and quality indicators in ERCP practice.
BREAKFAST D: Conundrums in Motility: How the Experts Handle Tough Cases
Moderator: John E. Pandolfino, MD, MSCI, FACG
• UES Dysfunction/Cricopharyngeal Bar
  Reza Shaker, MD, FACG
  Describe the management of upper esophageal sphincter dysfunction/cricopharyngeal bar through the evaluation of cases.
• Ineffective Esophageal Motility/Hypomotility Disorders
  C. Prakash Gyawali, MD, MRCP, FACG
  Discuss the management of IEM/hypomotility disorders through the evaluation of cases.
• GEJ Outflow Obstruction
  John E. Pandolfino, MD, MSCI, FACG
  Explain the management of gastroesophageal junction outflow obstruction through the evaluation of cases.

BREAKFAST E: Remaining Challenges in the Management of Hepatitis C Infection
Moderator: Norah A. Terrault, MD, MPH, FACG
• Hepatitis C Management: Overview and Update
  Nancy S. Reau, MD, FACG
  Review the current state-of-the-art treatment options for hepatitis C.
• Difficult-to-Treat HCV Patients
  Norah A. Terrault, MD, MPH, FACG
  Discuss the treatment options for hepatitis C in patients with decompensated cirrhosis, recognize treatment options for HCV patients who have failed prior therapies, and identify the unique needs of injection drug users with HCV infection.
• Management of the Cured HCV Patient
  Joseph K. Lim, MD, FACG
  Identify the long-term management of the hepatitis C patient who has been cured of their infection.

BREAKFAST F: Challenges in Small Bowel Bleeding
Moderator: Elizabeth Rajan, MD
• Approach to the Patient With Obscure GI Bleeding
  Elizabeth Rajan, MD
  Describe the classification and etiologies of small bowel bleeding and explain the approach to initial work-up of patients with small bowel bleeding.
• Update and Quality Metrics in Capsule Endoscopy
  Jodie A. Barkin, MD
  Discuss new updates in video capsule endoscopy technology, and define markers of quality in the preparation, performance, and interpretation of video capsule endoscopy with strategies for optimization.
• Medical and Endoscopic Management of Small Bowel Angioectasias and Other Lesions
  Kathy P. Bull-Henry, MD, MBA, FACG
  Recognize the role of small bowel enteroscopy and medical therapies in managing small bowel bleeding due to angioectasias and other lesions.

7:50 am – 8:00 am Opening Remarks
Sunanda V. Kane, MD, MSPH, FACG, ACG President

7:50 am – 8:00 am Opening Remarks
Sunanda V. Kane, MD, MSPH, FACG, ACG President

8:00 am – 9:00 am Presidential Plenary Session 1
(Paper/Abstract Presentations)
Stars at Night Ballroom
Moderators: Sunanda V. Kane, MD, MSPH, FACG, and Seth A. Gross, MD, FACG

1. Efficacy of Budesonide Oral Suspension for Eosinophilic Esophagitis in Adolescents and Adults: Results From a Phase 3, Randomized, Placebo-Controlled Trial
   ★ Category Award (Esophagus)
   Ikuo Hirano, MD, FACG, Margaret H. Collins, MD, David A. Katzka, MD, Vincent A. Mikkada, MD, Gregory W. Falk, MD, FACG, James Williams, MD, Nirav K. Desai, MD, Lan Lan, PhD, Robin Morey, MPH, BA, Evan S. Dillion, MD, MPH; Northwester University Feinberg School of Medicine, Chicago, IL, *Cincinnati Children’s Hospital Medical Center and University of Cincinnati College of Medicine, Cincinnati, OH, Mayo Clinic, Rochester, MN, *Perelman School of Medicine, University of Pennsylvania, Philadelphia, PA, *Shire, a Takeda company, Lexington, MA, *Center for Esophageal Diseases and Swallowing, University of North Carolina, Chapel Hill, NC

2. Avoidant/Restrictive Food Intake Disorder (ARFID) Among Adult Gastroenterology Behavioral Health Patients: Comparison of ARFID vs. Non-ARFID Patients
   ★ Category Award (Functional Bowel Disease)
   Kimberly N. Harer, MD, ScM, Christina Jagielski, PhD, MPH, William D. Chey, MD, FACG, Megan Riehl, PsyD; University of Michigan, Ann Arbor, MI, *Michigan Medicine, University of Michigan, Ann Arbor, MI

3. Transitioning From Vedolizumab IV to Vedolizumab SC in Patients With Ulcerative Colitis: Results From the VISIBLE Program
   ★ Category Award (Esophagus)

4. Patient Attitudes Towards Pre-Procedural Telehealth Visits Prior to Advanced Endoscopic Procedures: Results of a Pilot Survey
   ★ Fellows-in-Training Award (Interventional Endoscopy Category)
   Sauraj Suresh, MD, Stacy Menees, MD, Sameer D. Saini, MD, MSc, Anoop Prabhu, MD; University of Michigan Health System, Ann Arbor, MI, *University of Michigan School of Medicine, Ann Arbor, MI

5. Kinetics of Stool Polymerase Chain Reaction in Clostridioides difficile Infection and Its Utility in Predicting Recurrence
   Srishti Saha, MD, MBBS, Ryan Pardi, Robin Patel, MD, Darrell Pardi, MD, MS, FACG, Sahil Khanna, MBBS, MS; Mayo Clinic, Rochester, MN

9:00 am – 9:30 am President’s Address
Stars at Night Ballroom
Sunanda V. Kane, MD, MSPH, FACG
Introduced by: Mark B. Pochapin, MD, FACG
6. Statin Use Reduces the Risk of Hepatocellular Carcinoma: An Updated Meta-analysis and Systematic Review

**ACG Governors Award for Excellence in Clinical Research (Physician, Non-Trainee)**
Muhammad Talal Sarmini, MD, Mohammad Alomari, MD, Laith Al Momani, MD, Mohammad Maysara Asfari, MD, Carlos Romero-Marrero, MD, MSC, Cleveland Clinic Foundation, Cleveland, OH, 2 East Tennessee State University, Johnson City, TN, 3 Medical College of Georgia at Augusta University, Augusta, GA, Digestive Disease Institute, Cleveland Clinic Foundation, Cleveland, OH

7. Travelers’ Diarrhea, Single Dose Antibiotics, Acquisition of Multi-Drug Resistance and Associations With Functional Microbiome Characterization: Is There Any There There?

**Category Award (Small Intestine)**
Ryan C. Johnson, PhD, Joy D. Van Nostrand, PhD, Michele Tisdale, MS, Brett E. Swierzewski, PhD, Mark P. Simons, PhD, MScPh, Patrick Connor, FRCPath, MFRP, Jamie Fraser, MPH, Angela R. Melton-Celsa, PhD, David R. Tribble, MD, DrPH, Mark S. Riddle, MD, DrPH, MPH, 4 Uniformed Services University of the Health Sciences, Bethesda, MD, 5 Naval Medical Research Center, Silver Spring, Bethesda, MD, 6 UK Defence Medical Service, Birmingham, England, United Kingdom, 7 The Henry M. Jackson Foundation for the Advancement of Military Medicine, Bethesda, MD, 8 Infectious Disease Clinical Research Program at USUHS, Henry M. Jackson Foundation for the Advancement of Military Medicine, Bethesda, MD, 4 Infectious Disease Clinical Research Program at USUHS, Bethesda, MD, 4 University of Nevada Reno School of Medicine, Reno, NV

8. Randomized Controlled Trial (RCT) of Over-the-Scope Clip (OTSC) as Initial Endoscopic Treatment of Severe Non-Variceal Upper Gastrointestinal Bleeding (NVUGIB)

**Category Award (GI Bleeding)**
Dennis M. Jensen, MD, FACC, Thomas Kovacs, MD, Kevin Ghassemi, MD, Marc Kaneshiro, MD, Jeffrey Gornbein, DrPh, 4 CURE Digestive Diseases Research Center / David Geffen School of Medicine at UCLA and Ronald Reagan UCLA Medical Center / West Los Angeles Veterans Administration Medical Center, Los Angeles, CA, 4 CURE Digestive Diseases Research Center / David Geffen School of Medicine at UCLA and Ronald Reagan UCLA Medical Center, Los Angeles, CA, 4 GIM - DOMSTATS, Los Angeles, CA

9. Numerous Non-Advanced Adenomas Are Not Associated With Metachronous Advanced Neoplasia

**Fellows-in-Training Award (Colorectal Cancer Prevention Category)**
Carol Rouphael, MD, Rocio Lopez, MS, MPH, John McMichael, BSc, Carol A. Burke, MD, FACC, Cleveland Clinic Foundation, Cleveland, OH

10. Double High-Level Disinfection vs. Sterilization for Reprocessing of Duodeno-scopes Used for ERCP: A Prospective Study

**Category Award (Biliary/Pancreas)**
Mark A. Gromski, MD, Marnie S. Sieber, MSN, RN, Stuart Sherman, MD, FACC, Douglas K. Rex, MD, MACG, Indiana University School of Medicine, Indianapolis, IN, 3 Indiana University Health, Indianapolis, IN

**SIMULTANEOUS SYMPOSIA – SESSION 1 – Choose from 3**

**SYMPOSIUM 1A: CRC Screening and Surveillance Conundrums**
Stars at Night Ballroom - B1
Moderator: Aasma Shaukat, MD, MPH, FACG
- At What Age Should I Start Screening and When Should I Stop?
  - Aasma Shaukat, MD, MPH, FACG
  - Discuss the evidence to support or refute starting colonoscopy screening at age 45 and stopping after age 75.
- Colon Polypectomy, What Should You Use: Forceps to ESD
  - Mark B. Pochapin, MD, FACG
  - Review best practice for colon polyp removal depending on polyp size.
- What Should I Do With a Positive Stool Test After a Negative Colonoscopy?
  - Carol A. Burke, MD, FACC
  - Explain an evidence-based approach to a positive stool test after a recent negative colonoscopy.

**SYMPOSIUM 1B: Controversies in Esophageal Disease: Expert Debates**
Stars at Night Ballroom - B4
Moderator: Christine Y. Hachem, MD, FACG
- Do Endoscopic Anti-Reflux Therapies Have a Role in 2019?
  - Ronnie Fass, MD, FACC, and Seth J. Richter, MD, FACG
  - Compare effectiveness of endoscopic anti-reflux therapies in the management of GERD.
- Debating the Management of Achalasia: Is E-POEM Now a First-Line Therapy?
  - Philip O. Katz, MD, MACG, and Marcelo F. Vela, MD, MSCR, FACC
  - Compare effectiveness of POEM, pneumatic dilation, and Heller myotomy in the management of achalasia.

**SYMPOSIUM 1C: Improving Your Clinical Practice**
Stars at Night Ballroom - B2
Moderator: Shivangi T. Kothari, MD, FACG
- Quality Metrics in Your Endoscopic Practice
  - Colleen M. Schmitt, MD, MHS, FACG
  - Define quality metrics in the endoscopy unit and gastroenterology clinic and recognize the role of GIQuIC and tools for quality reporting.
- Integrating Advanced Practice Providers in Your Clinical Practice
  - Shivangi T. Kothari, MD, FACG, and Mary S. Vetter, ANP
  - Explain how APPs can play an important role in your gastroenterology practice and identify techniques for their training.
- Telemedicine in Gastroenterology: Why and How to Adopt It Into Your Practice
  - Harry E. Sarles, Jr., MD, FACC
  - Describe how telemedicine adds value to the practice of gastroenterology, how to integrate telemedicine into your practice, and discuss liability issues relative to telehealth.

**Lunch Break - Visit the Exhibit Hall and Browse Scientific Posters**
ACG-FDA Public Forum Room 303 (Ballroom Level)

**Exhibitor Theater**
1:00 pm – 2:15 pm
Scientific Poster Session - Authors Present and Poster Rounds With the Experts
1:45 pm – 2:15 pm
Exhibitor Theater
PLENARY SESSION 1A – LIVER

11. Positive Results From REGENERATE: A Phase 3 International, Randomized, Placebo-Controlled Study Evaluating Obeticholic Acid Treatment for NASH
Zobair Younossi, MD, FACG, Vlad Ratziu, MD, Rohit Loomba, MD, Quentin M. Anstee, MD, FRCPath, Zachary Goodman, MD, PhD, Pierre Bedossa, MD, PhD, Andreas Geier, MD, Susanne Beckebaum, MD, Philipp Newsome, MD, David Sheridan, MD, James Trotter, MD, Whitfield Knapple, MD, FACG, Eric Lawitz, MD, Kris Kowdley, MD, Aldo Montano-Loza, MD, Jerome Boursier, MD, Philippe Mathurin, MD, Elisabetta Bugianesi, MD, Giuseppe Mazzella, MD, Antonio Olveira, MD, Helena Cortez-Pinto, MD, Isabel A. Gloria, MD, Loire, France, Hospital Claude Huriez CHRU Lille, Lille, Nord-Pas-de-Calais, France, University of California San Diego, California, CA, Feinberg School of Medicine, Northwestern University, Chicago, IL, Institute of Cellular Medicine, Newcastle University, Newcastle upon Tyne, England, United Kingdom, Hospital Pitié-Salpêtrière, Paris, France, University of California San Diego, California, CA, Feinberg School of Medicine, Northwestern University, Chicago, IL, Institute of Cellular Medicine, Newcastle University, Newcastle upon Tyne, England, United Kingdom, Hospital Pitié-Salpêtrière, Paris, France, University of California San Diego, California, CA, Feinberg School of Medicine, Northwestern University, Chicago, IL, Institute of Cellular Medicine, Newcastle University, Newcastle upon Tyne, England, United Kingdom, Hospital Pitié-Salpêtrière, Paris, France, University of California San Diego, California, CA, Feinberg School of Medicine, Northwestern University, Chicago, IL, Institute of Cellular Medicine, Newcastle University, Newcastle upon Tyne, England, United Kingdom, Hospital Pitié-Salpêtrière, Paris, France.

12. B-Type Natriuretic Peptide Predicts 90-Day Mortality and Need for Paracentesis in Patients With Cirrhosis and Without Systolic Heart Failure
Pedro Palacios, MD, Tiago Araujo, MD, Ishaan Vohra, MD, Yazan Abu Omar, MD, Estefania Flores, MD, V. V. Pavan Kulkarni, MD, Tejinder Randhawa, DO, Yuchen Wang, MD, Sanjay A. Patel, DO, John H. Stroger, Jr. Hospital of Cook County, Chicago, IL, Cook County Health and Hospital System, Chicago, IL.

13. Pregnancy Outcomes After Liver Transplantation
AGC Auxiliary Award (Trainee)
Lindsay Sobotka, DO, Alice Hinton, PhD, Khalid Muntaz, MD, Eleni Conteh, MD, MPH; The Ohio State University Wexner Medical Center, Columbus, OH, The Ohio State University College of Public Health, Columbus, OH.

14. Sex-Specific and Ethnicity-Specific Disparities in Successful Linkage to Care Among Chronic Hepatitis C Virus Infection Patients at an Under-Served Safety Net Hospital
AGC/Naomi Nakao Gender-Based Research Award
Chantal Gomes, DO, Dina Ginzberg, DO, Benny Liu, MD, Taft Bhuket, MD, Robert Wong, MD, MS, FACG; Alameda Health System, Oakland, CA, Alameda Health System - Highland Hospital, Oakland, CA.
ANNUAL SCIENTIFIC MEETING
Monday through Wednesday, October 28-30, 2019

SIMULTANEOUS SYMPOSIA – SESSION 2 – Choose from 3
4:45 pm – 6:00 pm

SYMPOSIUM 2A: Positioning Therapies in IBD: What’s the Initial Treatment Strategy?
Stars at Night Ballroom - B1
Moderator: David T. Rubin, MD, FACG

- Low-Risk Crohn’s Disease – Do We Need to Do Anything at All?
  Kim L. Isaacs, MD, PhD, FACG

- High-Risk Ulcerative Colitis – Where Do We Start?
  David T. Rubin, MD, FACG
  Discuss medication selection based on patient and disease-related factors for high-risk UC.

- High-Risk Crohn’s Disease – More Options, More Questions?
  Uma Mahadevan, MD, FACG
  Position the newer mechanisms of action into the treatment algorithm for high-risk Crohn’s disease patients.

SYMPOSIUM 2B: Challenging Functional Complaints
Stars at Night Ballroom - B2
Moderator: Linda Anh B. Nguyen, MD

- POTS and EDS: What Does a Gastroenterologist Need to Know?
  Linda Anh B. Nguyen, MD
  Recognize and discuss the emerging overlap between postural tachycardia syndrome and Ehlers-Danlos gastrointestinal disorders.

- Neuromodulation for Functional Abdominal Pain
  Brooks D. Cash, MD, FACG
  Discuss the diagnosis and treatment of chronic functional abdominal pain.

- Things That Make You Go Green: Cyclic Vomiting, Cannabinoid Hyperemesis, and Chronic Nausea
  Edith Y. Ho, MD, MS, FACG
  Differentiate between different functional etiologies of nausea and vomiting.

SYMPOSIUM 2C: Live From San Antonio! The 7th Annual Endoscopy Video Forum
Stars at Night Ballroom - B4
Moderators: Seth A. Gross, MD, FACG, and Vivek Kaul, MD, FACG
Judges: Jodie A. Barkin, MD; Qiang Cai, MD, PhD, FACG; Prabhleen Chahal, MD, FACG; David A. Greenwald, MD, FACG; Vanessa M. Shami, MD, FACG; Allison R. Schulman, MD, MPH; and Kevin E. Woods, MD, MPH
Demonstrate interesting endoscopic findings and techniques encountered in daily clinical practice.

V1. An Interesting Report of Endoscopic Management of a Migrated Gastric Lap Band
Daniel J. Waintraub, MD, Kaveh Zivari, MD, Jonathan Weinberger, MD, Richard M. Fazio, MD, MS, Zoe Berman, MD, Danny Sherwinter, MD, Maryanne Ruggiero, MD, Dmitriy O. Khodorskiy, MD; Maimonides Medical Center, Brooklyn, NY

V2. Bilateral Metal Stent ERCP Through an Endoscopic Ultrasound-Guided Gastrojejunal Lumen-Apposing Stent
Rintaro Hashimoto, MD, Nabil El Hage Chehade, MD, Jason Samarasena, MD, FACG; University of California Irvine Medical Center, Orange, CA

V3. Multi-Modality Endotherapy of Esophageal Fissure (EPF) Using a Novel External Stent Anchoring Mechanism
Rebecca Crain, Hamza Abdulla, MD, Praveen Guturu, MD, Sreeram Parupudi, MD, FACG; University of Texas Medical Branch, Galveston, TX

V4. Caught Between a Rock and a Hard Place: EUS-Guided Drainage of a Vascular Configuration
Youssef El Doualhy, MD, Sherif Andrawese, MD, Elliot Landau, MD; Staten Island University Hospital, Staten Island, NY

V5. Loop Combined Endoscopic Clip and Cyanoacrylate Injection to Treat the Severe Gastric Varices With Spleno-Renal Shunt
Ai Zhenglin, MD, Li Ping, MD; Beijing Di-Tan Hospital, Capital Medical University, Beijing, Beijing, China

Prianka Gajula, MD1, Mohamed Othman, MD2; ‘Houston Methodist Hospital, Houston, TX, ’Baylor College of Medicine, Houston, TX

V7. Endoscopic Management of a Recalcitrant Anastomotic Bile Leak After Pancreatoduodenectomy
Feng Li, MD1, Kevin El-Hayek, MD2, Prabhleen Chahal, MD, FACG3; ‘Cleveland Clinic Foundation, Cleveland, OH, ’Cleveland Clinic, Cleveland, OH

V8. A Natural Orifice Transluminal Endoscopic Surgical Approach to Cruroplasty for GERD Management: A Feasibility Study in an Acute Porcine Model
Carl Manzo, MD1, Abraham Mathew, MD; Jennifer Maranki, MD2, Eric Pauli, MD; Matthew Moyer, MD, MS1, Jennifer Izer1, Fred Karaisz, BS2; Penn State Milton S. Hershey Medical Center, Hershey, PA, ’Penn State University Milton S. Hershey Medical Center and College of Medicine, Hershey, PA

6:00 pm – 6:30 pm   ACG’s Annual Business Meeting
Stars at Night Ballroom - B2
All Members and Fellows of ACG are invited.

6:30 pm   Annual Scientific Meeting Adjourns for the Day

TUESDAY, OCTOBER 29, 2019 | 6:45 AM - 6:25 PM

6:00 am – 5:00 pm   REGISTRATION OPEN

OPTIONAL BREAKFAST SESSIONS – Choose from 6
6:45 am – 8:15 am
(You must register and pay separately for breakfast sessions during the registration process.)

BREAKFAST G: Personalizing Treatment Strategies for GERD
Moderator: Rena H. Yadlapati, MD, MSHS

- How to Approach the Diagnostic Evaluation of Reflux Symptoms
  Rena H. Yadlapati, MD, MSHS
  Describe how to approach patients with reflux symptoms on or off therapy and discuss options for diagnostic testing and the clinical significance of reflux subgroups.

- Optimal Medical Management of Reflux: PPIs and Beyond
  Kerry B. Dunbar, MD
  Discuss optimal medical management of reflux, focusing on PPI therapy, non-PPI therapies, complementary and alternative therapies, and other emerging medical approaches.

- Non-Medical Options for Reflux Disease: Now and On the Horizon
  Richard I. Rothstein, MD, FACG
  Explain non-medical options for reflux including approved and developing endoscopic anti-reflux and surgical therapies, and speculate as to the non-medical-options in the near future.
BREAKFAST H: Advances in Luminal Interventional Endoscopy
Moderator: Peter V. Draganov, MD, FACC
- 2-PoEM, E-POEM, and G-POEM
  Peter V. Draganov, MD, FACC
  Compare new endoscopic techniques for management of achalasia, Zenker’s diverticulum, and gas troesophageal reflux.
- The Role of Endoscopic Mucosal Resection and Endoscopic Submucosal Dissection in Clinical Practice
  Andrew Y. Wang, MD, FACC
  Describe the role of EMR and ESD in modern endoscopy practice.
- Bariatric Endoscopy Update
  Allison R. Schulman, MD, MPH
  Define new techniques and technologies in bariatric endoscopy.

BREAKFAST I: Case-Based Studies of Common Mistakes in IBD – Recognition and Prevention
Moderator: David P. Hudesman, MD
- Diagnosis in IBD
  Maria T. Abreu, MD
  Discuss strategies to clarify the disease extent, location, and severity of a patient’s IBD.
- Monitoring in IBD
  Stephen B. Hanauer, MD, FACC
  Evaluate appropriate testing options to establish the diagnosis of IBD based on updated guidelines.
- Treatment in IBD
  David P. Hudesman, MD
  Identify the natural history of non-monitored IBD including surgeries, hospitalizations, disease progression, and cancer.

BREAKFAST J: Clinical Consults in Hepatology
Moderator: Stanley M. Cohen, MD, FACC
- Approach to a Patient With Elevated LFTs
  Stanley M. Cohen, MD, FACC
  Define a clinical approach to the patient presenting with abnormal liver tests.
- Rational Approach to a Patient With a Liver Lesion
  Joseph A. Ahn, MD, MS, FACC
  Discuss a clinical approach to the patient presenting with a liver lesion on imaging studies.
- Hepatitis B Reactivation in an Immunocompromised Patient
  Mindie H. Nguyen, MD, MAS
  Evaluate hepatitis B reactivation and its treatment in immunocompromised patients.

BREAKFAST K: Challenges and Opportunities to Practicing Gastroenterology in a Changing Landscape
Moderator: Carol A. Burke, MD, FACC
- Workplace Efficiency for the Practicing Gastroenterologist
  David J. Hass, MD, FACC
  Discuss strategies to maximize efficiency in the clinic, hospital, and endoscopy unit while maintaining excellence in quality of care and identify potential barriers to efficient practice.
- There Is so Much Literature, How Do I Keep “Up To Date”?
  Amy S. Oxentenko, MD, FACC
  Illustrate strategies to efficiently keep up with new literature as lifelong learners and explain techniques to incorporate new research into daily clinical practice.
- Pursuing Work-Life Balance and Preventing Burnout During Your Career
  Carol A. Burke, MD, FACC
  Define the principles of work-life balance and burnout, and propose techniques to recognize, prevent, and address physician burnout at all career stages.

BREAKFAST L: Endoscopic Resection of Large Polyps
(Moderator: Tonya R. Kaltenbach, MD, MS, FACC)
- Tips and Tricks to Perform a High-Quality Large Polyp Resection
  Tonya R. Kaltenbach, MD, MS, FACC
  Discuss the techniques for endoscopic resection of large colon polyps.
- Prevention and Management of Complications of Large Polyp Resection
  Laith H. Jamil, MD, FACC
  Identify methods to prevent and manage complications of large polyp resection.
- How to Start an EMR Program in Community Practice
  Harish K. Gagneja, MD, FACC
  Describe how to learn and perform EMR in a community practice in a safe, efficient, and effective manner.
- Hands-On Demonstration in the Exhibit Hall
  Harish K. Gagneja, MD, FACC, Laith H. Jamil, MD, FACC, and Tonya R. Kaltenbach, MD, MS, FACC

8:30 am - 6:25 pm    Annual Scientific Meeting

SIMULTANEOUS PLENARY SESSION 2 – Choose from 2
8:30 am – 10:00 am

PLENARY SESSION 2A – PANCREATITIS / COLORECTAL CANCER PREVENTION
- Star at Night Ballroom - B2
  Moderators: Linda S. Lee, MD, and Aasma Shaukat, MD, MPH, FACC

  Ahmed Messallam, MD1, Douglas G. Adler, MD, FACC2, Raj Shah, MD3, Jose Nieto, DO, FACC1, Robert Moran, MD1, Badih Elmunzer, MD, MSc1, Natalie Cosgrove, MD1, Daniel Nalladury, MD1, Harkirat Singh, MD2, Georgios Papa

20. Comparison of Normal Saline and Plasmalyte in the Management of Acute Pancreatitis
  Umar Iqbal, MD1, Michael Makar, MD2, Ruchit N. Shah, DO3, Andrea Berger1, Harshit S. Khara, MD, FACC1, Geisinger Medical Center, Danville, PA, 2Geisinger Health System, Danville, PA

  ★ Fellows-in-Training Award (Biliary/Pancreas Category)
  Abhinav Koul, MD1, Ashley Mills, MD2, Sital Singh, MD3, Hershan Johl, MD1, Hao Zhang1, Jessica La Force, RD1, Sooraj Tejaswi, MD, MSPH1, University of California Davis Medical Center, Sacramento, CA, 2Adventist Health Lodi Memorial, Sacramento, CA
22. Managing Fecal Immunochromatographic Test (FIT) at Population Health Level in an Urban Safety Net Hospital
★ Lawlor Resident Award
Abhinavysa Elangovan, MD, Peter J. Greco, MD, Katherine R. Davis, MD, David C. Kaelber, MD, MPH, PhD, Dalbir S. Sandhu, MD; Case Western Reserve University / MetroHealth Medical Center, Cleveland, OH

23. Higher Serrated Detection Rate Is Associated With Lower Risk for Post-Colonoscopy Colorectal Cancer
Joseph C. Anderson, MD, MHCCDS, FACG; 1Dartmouth-Hitchcock Medical Center, Lebanon, NH, 2American Cancer Society, Atlanta, GA, 3Digestive Disease Institute, Cleveland Clinic Foundation, Cleveland, OH

24. Variable Classification of Sessile Serrated Colon Polyps Among Pathologists in an Academic Center
Alexander P. Abadir, MD, Zain Moosvi, MD, William Kerns, MD; University of California Irvine, Orange, CA

25. Prevalence of Advanced Polyps at Age 45-49 Is Similar to 50-54 Years
Lyann F. Butterly, MD, Rebecca Siegel, MPH, Christina N. Robinson, MS, Joseph C. Anderson, MD, MHCCDS, FACG; 1Dartmouth-Hitchcock Medical Center, Lebanon, NH

26. Increased Polyp Detection Using a Novel 360 Degree Integrated View Colonoscope in Colon Models
★ ACG Governors Award for Excellence in Clinical Research (Fellow-in-Training)
Nicholas Hoerten, MD,1, Seth Gross, MD, FACG; 1New York University Langone Health, New York, NY, 2Tisch Hospital, New York University Langone Health, New York, NY

27. Young Adults With Adenomas: How Does Their Risk for Metachronous Advanced Adenomas Compare With Older Adults?
★ Category Award (Colorectal Cancer Prevention)
Joseph C. Anderson, MD, MHCCDS, FACG; Lynn F. Butterly, MD, Christina N. Robinson, MS; 1Dartmouth-Hitchcock Medical Center, Lebanon, NH

PLENARY SESSION 2B – PANCREATIC CANCER / ESOPHAGUS

28. The Prevalence and Epidemiology of Pancreatic Cancer in the USA: A Population-Based Study
George Khoudari, MD,1, Mohammad Abou Saleh, MD,2, Firas Bairdoun, MD,1, Muhammad Talal Sarmini, MD,1, Kenneth J. Vega, MD,1, Madhusudhan R. Sanaka, MD, FACG;1, Cleveland Clinic Foundation, Cleveland, OH, 2Medical College of Georgia, Augusta, GA

29. A Novel EUS-Guided Intratumoral Delivery of Submicron Particle Paclitaxel (SPP) for the Treatment of Locally Advanced Pancreatic Cancer (LA-PAC): A Prospective Safety, Tolerability and Preliminary Efficiency Study
Simon Lo, MD,1, Andrew Hendifdar, MD, MPH, Neil Sharma, MD,2, Mohamed Othman, MD,1, Antonio Mendoza-Ladd, MD,1, Shelagh Verco, PhD,1, James Verco,1, Gere diZerega, MD;1 Cedars-Sinai Medical Center, Los Angeles, CA, 2Parkview Health, Fort Wayne, IN, 3Baylor College of Medicine, Houston, TX, 4Texas Tech University Health Sciences Center, Paul L. 36. Hold for Late Breaking Abstract
10:05 am – 10:35 am  
J. Edward Berk Distinguished Lecture  
Post-Colonoscopy Colorectal Cancer: How Are We Doing?  
Stars at Night Ballroom - B2  
Linda Rabeneck, MD, MPH, MACG  
Introduced by: Sunanda V. Kane, MD, MSPH, FACG, ACG President  
Discuss the incidence and causes of post-colonoscopy colorectal cancer and review approaches to reducing its risk in clinical practice. See page 13 for more information.

10:30 am – 4:00 pm  
Scientific Poster Session Open

10:35 am – 11:30 am  
Break – Visit the Exhibit Hall and Browse Scientific Posters

10:35 am – 11:30 am  
Exhibitor Theater

SIMULTANEOUS SYMPOSIA – SESSION 3 – Choose from 3

11:30 am – 12:45 pm  
SYMPOSIUM 3A: Optimizing the Quality of Your Colonoscopy  
Stars at Night Ballroom - B1  
Moderator: Tonya R. Kaltenbach, MD, MS, FACG

• Quality Metrics for Colonoscopy  
  David A. Greenwald, MD, FACG  
  Define quality metrics that are associated with colorectal cancer screening.

• Techniques and New Technology to Improve ADR  
  Tonya R. Kaltenbach, MD, MS, FACG  
  Discuss techniques and technologies to increase adenoma detection rate.

• Optimizing Prep for Colonoscopy – Altering the Paradigm  
  Philip S. Schoenfeld, MD, MSED, MSC (Epid)  
  Identify the new paradigms in colonoscopy prep including a low residual diet, split prep, and more.

SYMPOSIUM 3B: Update on Fatty Liver Disease  
Stars at Night Ballroom - B2  
Moderator: Manal F. Abdelmalek, MD, MPH, FACG

• Epidemiology of NAFLD/NASH  
  Fasaha Kanwal, MD, MSHS  
  Summarize the epidemiology of NAFLD/NASH and define their diagnostic criteria.

• Non-invasive Diagnosis and Staging of NAFLD/NASH  
  Manal F. Abdelmalek, MD, MPH, FACG  
  Compare non-invasive staging techniques for NAFLD/NASH.

• Current and Upcoming Treatment of NAFLD/NASH  
  Naim Alkhouri, MD  
  Appraise the various treatment modalities for NAFLD/NASH.

SYMPOSIUM 3C: Can You Stomach These Topics?  
Stars at Night Ballroom - B4  
Moderator: Baharak Moshiree, MD, FACG

• Gastroparesis and Functional Dyspepsia: Same or Different?  
  Baharak Moshiree, MD, FACG  
  Summarize current evidence related to the management of gastroparesis and functional dyspepsia.

• Current Concepts on H. pylori Infection and Gastric Intestinal Metaplasia  
  Joo Ha Hwang, MD  
  Appraise recent guidelines and evidence regarding the management of H. pylori infection and gastric intestinal metaplasia.

• Why, With Whom, When, and How to Stop Long-Term PPI Use  
  Colin W. Howden, MD, FACG  
  Discuss current evidence surrounding the effects of long-term PPI therapy and translation into clinical practice.
42. Outcomes in Geriatric Patients Admitted for IBD Management: A National Study
Jeffrey Schwartz, MD; Brian Li, MD; Daniel J. Stein, MD, MPH; Joseph Feuerstein, MD; Beth Israel Deaconess Medical Center, Boston, MA; Beth Israel Deaconess Medical Center, Harvard Medical School, Boston, MA

43. Human Milk Oligosaccharides Improve All the Central Symptoms of Irritable Bowel Syndrome: A Multi-Center, Opel Label Trial
★ International Award
Olfur S. Palsson, PsyD; Anne Peery, MD; Dorthe Seitzberg, PhD; Ingvid D. Amundsen, MSC; Bruce McConnell, MSC, MBA; Magnus Simrén, MD, PhD; University of North Carolina, Chapel Hill, NC; Glycom A/S, Hovedstaden, Denmark; Sahlgrenska University Hospital, Gothenburg, Vastra Gotaland, Sweden

44. Effects of Eluxadoline on a Range of Bowel and Abdominal Symptoms in Patients With Irritable Bowel Syndrome With Diarrhea Who Report Inadequate Symptom Control With Loperamide
Darren M. Brenner, MD; Gregory S. Sayuk, MD, MPH; Steven J R Elmes, PhD; Mazen Saed, PharmD; William D. Chey, MD, FACC; Northwestern University Feinberg School of Medicine, Chicago, IL; Washington University School of Medicine and St. Louis VA Medical Center, St. Louis, MO; Allergan plc, Madison, NJ; Michigan Medicine, University of Michigan, Ann Arbor, MI

45. Efficacy of Biofeedback Therapy for Dyssynergic Constipation Among Elderly Patients
★ Fellows-in-Training Award (Functional Bowel Disease Category)
Samantha Spillman, MD, MS; Roopali Gupta, MD; David Kunkel, MD; University of California San Diego, San Diego, CA; University of California San Diego, La Jolla, CA

46. Low Incidence of Bleeding Complications in Patients With Cirrhosis Undergoing Transesophageal Echocardiography: A Systematic Review and Meta-Analysis
★ Category Award (Liver)
Mobolaji Odewole, BS, MPH; Ahana Sen, MD, Arjmand R. Mufti, MD, Deepak Agrawal, MD, Anh D. Nguyen, MD, Amit G. Singal, MD, MS, Nicole E. Rich, MD; University of Texas Southwestern Medical Center, Dallas, TX

Daniel J. Ellis, MD; George Therapondos, MBChB; Janak N. Shah, MD; Ari Cohen, MD; Gretchen E. Galliano, MD; Ricardo V. Romero, MD; John A. Evans, MD; Sunayana Udaya Kumar, MBBS, MPH; Abdul El Chafic, MD; Ochsner Medical Center, New Orleans, LA

48. Prevalence Rate of Colorectal Cancer in Various Chronic Liver Disease Groups in the United States Between 2014 and 2019: A Population-Based Study
Introduced by: Sunanda V. Kane, MD, MSPH, FACG, ACG President
Moderators: Ira M. Jacobson, MD, FACG, and Patrick E. Young, MD, FACG

49. Hepatocellular Carcinoma and Intrahepatic Cholangiocarcinoma in the U.S.: Exploring Trends Since 2001
Anas Raed, MD; Jigar Bhagatwala, MBBS; Amit Hudgi, MD; Muhammed Sherid, MD; Humberto Sifuentes, MD; Amol Sharma, MBBS; Subbaramiah Sridhar, MD; Augusta University, Augusta, GA; Georgia Medical College / Augusta University, Augusta, GA; Medical College of Georgia at Augusta University, Augusta, GA

50. Factors Leading to Discordance Between Vibration-Controlled Transient Elastography and Liver Biopsy in Patients With Non-Alcoholic Fatty Liver Disease
Hamna Fahad, MD, MBBS; Brittany Mitchell, MD; Talal Sarmini, MD; Tavankit Singh, MD; Arthur J. McCullough, MD; Cleveland Clinic Foundation, Cleveland, OH

51. A Step-Wise Approach to Non-Invasive Diagnosis of Advanced Fibrotic Disease in NAFLD
Hamna Fahad, MD, MBBS; Brittany Mitchell, MD; Talal Sarmini, MD; Tavankit Singh, MD; Arthur J. McCullough, MD; Cleveland Clinic Foundation, Cleveland, OH

52. Resuming Anticoagulation Following Hospitalization for Gastrointestinal Bleeding Associated With Reduced Thromboembolic Events and Improved Mortality: Results From a Systematic Review and Meta-Analysis
Natalie Tapaskar, MD; Alice Pang, MD; Neil Sengupta; The University of Chicago, Chicago, IL; New York University Langone, New York, NY; University of Chicago Medical Center, Chicago, IL

53. The Efficacy and Safety of Andexanet Alfa in Patients With Acute Gastrointestinal Bleeding While Taking Factor Xa Inhibitors: An ANNEXA-4 Sub-Analysis
Deborah Siegal, MD, MSC; Jan Beyer-Westendorf, MD; Patrick Yue, MD; Sonia Souza, PhD; Juliet Nakamya, PhD; Stuart J. Connolly, MD; Mark Crowther, MD; McMaster University, Hamilton, ON, Canada; University Hospital Carl Gustav Carus Dresden, Dresden, Sachsen, Germany; Portola Pharmaceuticals, Inc., South San Francisco, CA

54. Hold for Late Breaking Abstract

3:45 pm – 4:30 pm
Break – Visit Exhibit Hall and Browse Scientific Posters

4:30 pm – 5:00 pm
Emily Couric Memorial Lecture
Early Detection of Pancreatic Cancer: Problems, Promise, and Prospects
★ Stars at Night Ballroom – B2
Suresh T. Chari, MD, FACC
Introduced by: Sunanda V. Kane, MD, MSPH, FACG, ACG President
Define “early” detection, recognize its benefits, and identify barriers to early detection. See page 13 for more information.

5:00 pm – 5:10 pm
Break

SIMULTANEOUS SYMPOSIUM – SESSION 4 – Choose from 2
5:10 pm – 6:25 pm

SYMPOSIUM 4A: Barrett’s Esophagus: New Developments and Updates
★ Stars at Night Ballroom – B2
Moderator: Vani J.A. Konda, MD, FACC

• Tools to Enhance Dysplasia Detection in Barrett’s Esophagus
Vani J.A. Konda, MD, FACC
Explain the role of newer sampling and imaging technologies to improve dysplasia detection in BE.

• New Options for Endoscopic Therapy of Barrett’s Esophagus-Related Dysplasia and Neoplasia: Will RFA and EMR Be Replaced?
Neil Gupta, MD
Discuss the role of ESD, balloon cryotherapy, hybrid APC (argon plasma coagulation), etc.

• What Happens After Successful Ablation and Complete Remission of Intestinal Metaplasia? Can Surveillance Be Discontinued?
Prasad G. Iyer, MD, MS, FACC
Identify new data on recurrence rates, timelines, and patterns after complete remission of intestinal metaplasia, and the implications on recommendations for surveillance in the post-ablation state.
Recognize management strategies in patients with severe necrotizing pancreatitis using a case-based format.

Diagnosing Eosinophilic Esophagitis: Current Guidelines and Key Developments
Nicholas J. Shaheen, MD, MPH, FACC
Evaluate new guidelines for EoE and how they will impact PPI utilization, and discuss the new technologies and how they will affect diagnostic algorithms.

Selecting the Ideal Treatment Option for Your Patient With Eosinophilic Esophagitis
Kristle L. Lynch, MD
Discuss the current standard of care for EoE treatment and emerging therapies.

SYMPOSIUM 4B: Complicated Cases in Acute and Chronic Pancreatitis
Stars at Night Ballroom - B4
Moderator: Timothy B. Gardner, MD, MS, FACC
Panelists: Vanessa M. Shami, MD, FACC; Santhi S. Vege, MD, MACG; and David C. Whitcomb, MD, PhD, FACC
Recognize management strategies in patients with severe necrotizing pancreatitis, idiopathic recurrent acute pancreatitis, and painful chronic pancreatitis using a case-based format.

6:25 pm  Annual Scientific Meeting Adjoins for the Day

WEDNESDAY, OCTOBER 30, 2019
6:45 AM - 12:15 PM

6:30 AM - 12:15 PM  Registration Open

OPTIONAL BREAKFAST SESSIONS – Choose from 3
6:45 am - 8:15 am
(You must register and pay separately for breakfast sessions during the registration process.)

BREAKFAST M: Non-Medical Management of IBS and IBD
Moderator: Edith Y. Ho, MD, MS, FACC
• Behavioral Therapy in IBS and IBD
  Megan E. Riehl, PsyD
  Discuss behavioral therapy in the management of IBS and IBD.

• Dietary Management in IBS and IBD
  Edith Y. Ho, MD, MS, FACC, and Gabriela Gardner, RDN-AP, LD, CNSC
  Describe the evidence surrounding different dietary approaches to managing IBS and IBD.

• Other CAM: Plants, Needles, Electricity, and More
  Linda Anh B. Nguyen, MD
  Outline the approach to implementing complementary and alternative medicine into clinical practice.

BREAKFAST N: Non-IBD Colitides
Moderator: Lisa L. Strate, MD, MPH, FACC
• Checkpoint Inhibitor Colitis
  Shilpa Grover, MD
  Describe the clinical presentation, diagnosis, and management of checkpoint inhibitor colitis.

• SUDD and SCAD
  Lisa L. Strate, MD, MPH, FACC
  Analyze the data in support of symptomatic uncomplicated diverticular disease (SUDD) and segmental colitis associated with diverticulosis (SCAD) as distinct clinical entities, and review the management options.

• Ischemia and Microscopic Colitis
  Neil H. Stollman, MD, FACC
  Discuss ischemia and microscopic colitis and how to recognize, diagnose, and treat them.

BREAKFAST O: Eosinophilic Esophagitis: Key Updates and Optimal Management
Moderator: Nicholas J. Shaheen, MD, MPH, FACC
• Eosinophilic Esophagitis in Children and Adolescents: Implications for the Future
  Calles D. Menard-Katcher, MD
  Discuss the epidemiology and clinical presentation of pediatric EoE, and discuss the transition of patients from pediatric to adult care, and the implications for adult care.

8:30 am - 12:15 pm  Annual Scientific Meeting

PLENARY SESSION 4A – IBD / STOMACH / SMALL INTESTINE
Stars at Night Ballroom - B2
Moderators: Jessica R. Allegretti, MD, MPH, and Samir A. Shah, MD, FACC

55. A Quality Improvement Initiative to Reduce Insurance-Related Delays in Patient Access to Biologic Therapies for Inflammatory Bowel Disease
Ellen J. Scher, MD, FACC; Kristina I. Fajardo, MS; Laura Simone, PhD, Jeff Carter, PhD; Tamar Sapir, PhD; Stevie Yang, BA; Jonathan S. Galati, BS; Fatima Habouni, MD; Brian Krichevsky, MBA, MS, BS; Carl S. 59. Incidence of Venous Thromboembolic Events in Patients With Ulcerative Colitis Treated With Tofacitinib in the Ulcerative Colitis Clinical Development Program

William J. Sandborn, MD, FACC; Julian Panés, MD, PhD; Bruce E. Sands, MD, FACC; Walter Reimisch, MD; Chinyu Su, MD; Nervin Lawendy, PharmD; Nana Koram, PhD, MPH; Haiyun Fan, MS; Thomas V. Jones, MD, MPH; Irene Modesto, MD, PhD; Daniel Quirk, MD, MPH, MBA; Silvio Danese, MD, PhD; University of California San Diego, La Jolla, CA; Istituto Clinico San Raffaele, Milan, Italy; ICAHN School of Medicine at Mount Sinai, New York, NY; Medical University of Vienna, Vienna, Wien, Austria; Pfizer Inc, Collegeville, PA; Pfizer Inc, New York, NY; Pfizer, Madrid, Madrid, Spain; Humanitas University, Milan, Lombardia, Italy

60. Black and White Patients With Inflammatory Bowel Disease Demonstrate Similar Biologic Use Patterns With Medicaid Insurance

Edward L. Barnes, MD, MPH; Robert Sandler, MD, MPH; Michael Kappelman, MD, MPH; Millie D. Long, MD, MPH, FACC; University of North Carolina, Chapel Hill, NC; University of North Carolina, Center for Gastrointestinal Biology and Disease, Chapel Hill, NC

61. The Impact of In-Hospital Palliative Unit on Percutaneous Gastrostomy Practice, Volume, and Outcomes

★ Category Award (General Endoscopy)

Harish Patel, MD; Jasbir Makker, MD; Hassan Tariq, MD; Rafeeq Ahmed, MD; Kishore Kumar, MD; Chukwunonso U. Chime, MD; Madhavi Ravi, MD; Hafsa Abbas, MD; Ahmed Baiomi, MD; Danial Shaikh, MD; Shehriyar Mershamhi, MD; Bhavna Balar, MD; Sridhar Chilimuri, MD; BronxCare Health System, Bronx, NY; Bronx Lebanon Hospital Center, Bronx, NY

62. The Socioeconomic Impact on Presentation and Clinical Course of Celiac Disease

★ Fellows-in-Training Award (Small Intestine Category)

ACG 2019 EXHIBIT HALL

The science and technology of medicine is ever-changing and advancing the practice of gastroenterology. Showcasing these latest advances in technology and therapeutics is the ACG 2019 Exhibit Hall where more than 150 companies will display and demonstrate their products and services. With the variety of exhibitors expected to participate, there are certain to be displays of interest for all attendees. Companies that exhibit include pharmaceutical manufacturers, medical instrument suppliers, research companies, technology companies, publishers, non-profit organizations, recruiters, and many others.

Immediately following the conclusion of the Postgraduate Course on Sunday, October 27, join colleagues for the ACG 2019 Opening Welcome Reception in the Exhibit Hall from 5:15 pm – 7:00 pm. The reception will feature hors d’oeuvres and refreshments. This casual social gathering will give all attendees the opportunity to explore the Hall, meet with exhibitors, and network and mingle with fellow professionals.
