# GOING VIRTUAL! ACG 2020

## ANNUAL SCIENTIFIC MEETING & POSTGRADUATE COURSE

*Your ACG, Your Way*

### DEAR COLLEAGUES:

After thorough and wide-ranging consideration of the many challenges to safely convene a live meeting this October, the ACG Board of Trustees unanimously decided to offer a virtual educational experience for the 2020 ACG Annual Scientific Meeting & Postgraduate Course. The good news is that we have identified a powerful online platform with the capacity and features to host a meeting as complex as ours while creating many new opportunities for connection, interaction and innovation. There will be a digital e-Poster hall, virtual exhibits, new ways to engage with investigators, dedicated live sessions for Q&A with expert faculty, and smaller fora for conversation, networking and learning. Strengths of the new platform include new ways for investigators to showcase their posters, including recording short presentations and Q&A features to engage on the science. In light of all the challenges for GI clinicians during the COVID-19 pandemic, ACG worked hard to envision a schedule of events that is as easy possible for you to take time away from essential patient care to login, connect and really engage with the program.

#### **Your ACG, Your Way**

ACG aims to ensure that days of the Annual Scientific Meeting and Postgraduate Course from Friday, October 23 to Wednesday, October 28 are manageable in terms of competing demands upon your time. The goal is to have this year be “Your ACG, Your Way.” That’s why so much of the rich array of educational content will be available on-demand about two weeks before the meeting and remain there for over 90 days thereafter. To bring this on-demand content to life, we have scheduled live sessions with clinical pearls and key take-aways by expert faculty to distill the lessons learned from each session and at the end of each day.

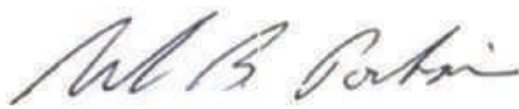

#### **Schedule Changes & Program Enhancements**

When you review the schedule for Virtual ACG 2020, look for more evening programs during the ACG Postgraduate Course over the weekend of Saturday, October 24 and Sunday, October 25 that will bring our members together at the end of a great day of learning for significant community experiences, such as the ACG Leadership Awards, SCOPY Awards celebration, and GI Jeopardy—ACG’s favorite game show. We implemented a schedule shift to move the Virtual ACG 2020 Annual Scientific Meeting later in the day to create an evening “prime time” for signature ACG offerings such as the President’s Address, a special Emily Couric Memorial Lecture delivered by her sister Katie Couric who will also engage in a lively conversation with ACG President Dr. Mark Pochapin, as well as an ACG Town Hall addressing critical issues facing GI and medicine.

#### **Maximizing Our Potential for Interaction**

The schedule for Virtual ACG 2020 is designed to maximize the potential for interaction and to enhance the value of the educational experience, while allowing easier participation in the live events and offering sessions aimed at strengthening your pride in ACG and the GI community at this time. The goal is a daily schedule that is both realistic and accessible—especially at a time when patient care demands are pressing and so many clinicians face competing personal and professional obligations. We are getting through this pandemic together, we are reopening our practices, we are getting back to doing endoscopy, and, of course, we are all looking forward to getting together at our Annual Meeting in October—this time in the virtual space. There we will discuss what we are all so passionate about: how to improve care for our patients and our profession.

Please stay safe and well,

Mark B. Pochapin, MD, FACG, ACG President

# VIRTUAL MEETING PLATFORM

## HOW IT WORKS

### LEARN ON YOUR OWN TIME, ON YOUR OWN TERMS

Information on how to access the virtual platform will be e-mailed to all registrants shortly before the meeting.

### ON-DEMAND CONTENT

The rich array of educational content for Virtual ACG 2020 will be available on-demand approximately two weeks before the meeting and will remain available until January 31, 2021. You will have access to on-demand sessions based on the courses for which you register. We encourage attendees to watch the full-length on-demand presentations recordings prior to the live-streaming Q&A sessions. For a complete listing of on-demand content, see pages 22-42.

### LIVE-STREAMING INTERACTIVE SESSIONS WITH EXPERT Q&A

To bring this on-demand content to life, from October 23 - 28, we have scheduled live-streaming sessions with clinical pearls and key take-aways by expert faculty to distill the lessons learned from each session. Attendees will have the opportunity to submit typed questions for the faculty during these sessions. You will have access to live-streaming sessions based on the courses for which you register. These live-streaming sessions will be recorded and will be available on-demand within one week of their broadcast date to view at your convenience. Check out the Schedule-at-a-Glance on pages 4-5 for a guide to the daily live-streaming content or for a complete listing of sessions and faculty see pages 10-17.

### OPEN ACCESS LIVE-STREAMING EVENTS

Virtual ACG 2020 offers special events aimed at strengthening your pride in the College and in the GI community at this time. Join your colleagues for significant community experiences such as the ACG Leadership Awards, SCOPY Awards celebration, and GI Jeopardy - ACG's favorite game show! A schedule shift for 2020 creates evening "prime time" sessions to maximize participation in such signature sessions such as the President's Address, a special Emily Couric Memorial Lecture delivered by her sister Katie Couric, and a live ACG Town Hall addressing Healthy Equity.

### CREATE A CUSTOM SCHEDULE

Using the virtual platform's "Sessions" feature, search by course, topic, speaker, keyword and more to find both live-stream and on-demand sessions. Select All Days for both live-stream and on-demand content, or search a particular day for live-stream only or on-demand for pre-recorded content only. Once you find what you are looking for, click "Add to Schedule" to create your personal schedule for ACG 2020.

### DIGITAL EPOSTER HALL

ACG is excited to announce the inclusion of ePosters to this year's program, where poster authors will share their research and interesting clinical cases electronically. Attendees can easily browse nearly 3,000 high-quality digital posters, listen to recorded audio of presenters explaining their findings, zoom in on poster details, take notes directly on the files, and download the posters in PDF format (when permitted by the presenter). To foster engagement with investigators and discussion of their findings, participants will be able to submit questions directly to poster authors. ACG 2020 attendees will have access to the ePoster Hall both during and after the meeting, allowing the education to continue well beyond the meeting dates!

### VIRTUAL EXHIBIT HALL

Visit the ACG 2020 Virtual Exhibit Hall on the ACG virtual meeting platform. Over 70 booths will be available for you to explore from October 23, 2020 - January 31, 2021. Companies will be available to meet with you live from October 23 - 28 to answer any questions you have about their products.

Many companies will be raffling off prizes, so be sure to check out the virtual raffle page and visit participating exhibitors to enter drawings! Don't forget to play the official Scavenger Hunt in the ACG 2020 Meeting App. Visit all participating companies and enter the drawing for fabulous prizes! As always, your support of the ACG exhibitors is vital as it allows the ACG to keep offering the Annual Scientific Meeting FREE for members.

# SPECIAL EVENTS

## OPEN TO ALL ATTENDEES

### TRAINEES SESSION

Friday, October 23, 2020 | 8:00 pm (ET)

The ACG Training Committee is pleased to once again offer a session for Fellows-in-Training during “prime time” at ACG 2020. Join us Friday evening as a panel of leaders in GI discuss “The Leadership Journey: Paving Your Own Path for a Successful Career.” Attendees will have the opportunity to submit questions. This is a free program for attendees at ACG 2020.

### AJG “MOST READ IN RED: COVID-19”: A CONVERSATION WITH AJG CO-EDITORS IN CHIEF

Saturday, October 24 | 3:30 pm (ET)

Red Journal Co-Editors-in-Chief, Brian E. Lacy, MD, PhD, FACG and Brennan M. Spiegel, MD, MSHS, FACG, discuss the publishing landscape for COVID-19 related science and analyze key papers published by AJG this year.

### ACG SCOPY AWARDS CEREMONY

Saturday, October 24 | 8:00 pm (ET)

Join the ACG Public Relations Committee online and celebrate your colleagues who will receive 2020 ACG SCOPY Awards. Be inspired by a dynamic panel presentation on some of the best, most innovative and impactful community education programs to raise awareness of colorectal cancer despite the challenges of 2020. SCOPY is ACG’s Service Award for Colorectal Cancer Outreach, Prevention & Year-Round Excellence.

### ACG LEADERSHIP AWARDS CEREMONY

Saturday, October 24 | 8:30 pm (ET)

Celebrate with recipients of the College’s highest honors at the ACG Leadership Awards Ceremony. ACG President Dr. Mark Pochapin will host this tribute to winners of the Weiss Award, Berk/Fise Clinical Achievement Award, International Leadership Award, Community Service Award, and President’s Special Recognition Award and will introduce the newest Masters of the American College of Gastroenterology.

### “ENDO eLEARNING” SESSION

Sunday, October 25 | 10:15 am (ET)

### CHIEF’S ROUNDS AT ACG 2020 – IN CONVERSATION WITH ACG PRESIDENT DR. MARK POCHAPIN

Sunday, October 25 | 3:30 pm (ET)

A lively conversation with special guests in the style of Dr. Pochapin’s SiriusXM radio show, Chief’s Rounds. Bringing the same energy and excitement to Virtual ACG 2020 as the live SiriusXM radio show traditionally broadcast from the Annual Scientific Meeting. Don’t miss engaging and enlightening guests tackling the topics that matter most for the GI profession and for the College today.

### CELEBRATING DIVERSITY IN ACG HAPPY HOUR

Sunday, October 25 | 7:00 pm (ET)

*Your Hosts: ACG Women in GI Committee and Diversity, Equity & Inclusion Committee*

Gather to celebrate diversity in ACG and connect with colleagues for small group discussions. ACG’s Women in GI Committee and the Diversity, Equity & Inclusion Committee are transforming their annual reception into a forum for networking and meaningful conversation. After a welcome by Dr. Shivangi Kothari and Dr. Darrell Gray, small breakout sessions are a great opportunity to see friends and grow your professional network. Open to all. Supported by Takeda Pharmaceuticals, U.S.A., Inc.

### GI JEOPARDY: BUZZ IN FOR YOUR TRAINING PROGRAM

Sunday, October 25 | 8:15 pm (ET)

GI Jeopardy will return in 2020! To become a contestant, you must be a fellow-in-training, but all are welcome to attend the competitive final round, a spirited GI version of the television classic.

The competition began in July with a preliminary round open to all GI training programs. Groups of fellows took an online test on a variety of GI topics and diseases. This year, the top five scoring programs who nominated two-person teams for the virtual competition to be live-streamed and open to all Virtual ACG 2020 registrants are:

Cleveland Clinic Foundation  
Rutgers Robert Wood Johnson Medical School  
UCLA David Geffen School of Medicine/UCLA Medical Center  
University of Iowa Hospitals & Clinics  
University of Pennsylvania Health System

Login Sunday, October 25th at 8:15 pm Eastern for ACG’s favorite game show and cheer as the competitors face off live in front of the Virtual ACG 2020 audience. Test your knowledge, shout out the answers at your computer screen, join the intensity and witness the valiant spirit of competition that is GI Jeopardy hosted by Dr. Ronald Szyjowski.

**VIRTUAL ACG 2020 OFFERS SPECIAL EVENTS** aimed at strengthening your pride in the College and in the GI community at this time. Join your colleagues for significant community experiences such as the ACG Leadership Awards, SCOPY Awards celebration, and GI Jeopardy – ACG’s favorite game show! A schedule shift for 2020 creates evening “prime time” sessions to maximize participation in signature sessions such as the President’s Address, a special Emily Couric Memorial Lecture delivered by her sister Katie Couric, and a live ACG Town Hall addressing Healthy Equity.

# FEATURED LECTURES

## WITH LIVE CHAT

### DAVID SUN LECTURE

#### Cardiogastroenterology: Intersectional Thinking to Meet New Clinical Needs

Neena S. Abraham, MD, MSc (Epid), FACG

Saturday, October 24 | 11:00 am – 11:30 am (ET)

Neena Abraham, MD, MSc (Epid), FACG, is a Professor of Medicine, College of Medicine, Mayo Clinic Arizona, and a Consultant in the Division of Gastroenterology and Hepatology. She is a federally-funded principal investigator at the intersection of Cardiology and Gastrointestinal disorders, focusing her research agenda in health services and outcomes research. Dr. Abraham investigates how antithrombotic drugs contribute to gastrointestinal bleeding, with particular attention to their effects in cardiac patients, the elderly, and highly co-morbid. She is the medical director of the Mayo Clinic CardioGastroenterology Clinic, which uses a multi-specialty collaborative care model to improve clinical outcomes for cardiac patients who are at risk of gastrointestinal bleeding. This model includes improved strategies for prescription drug management, patient engagement in shared decision-making, and risk factor modification. Dr. Abraham served as a Trustee of the American College of Gastroenterology from 2009–2015 after serving as a member of the ACG Research, Educational Affairs, Women's, and Public Relations Committees. She currently serves as a Board Member of the ACG Institute for Clinical Research and Education (2018–2021).

**i** The David Sun Lecture, held during the Postgraduate Course, was established by Mrs. Sun in memory of her husband, Dr. David Sun, an outstanding gastroenterologist and investigator. Each year, a lecturer with a distinguished background in gastroenterology or an allied field is chosen by the ACG President subject to the approval of the ACG Board of Trustees.

### THE AMERICAN JOURNAL OF GASTROENTEROLOGY LECTURE

#### Foregut Endotherapy: Cutting Edge Technology for 2020 and Beyond

Christopher C. Thompson, MD, MSc, FACG

Monday, October 26 | 4:00 pm – 4:30 pm (ET)

Christopher C. Thompson, MD, MSc, FACG is the Director of Endoscopy at Brigham and Women's Hospital and an Associate Professor of Medicine at Harvard Medical School. He is also the Advanced Endoscopy Fellowship Program Director and is clinical faculty at Boston Children's Hospital and the Dana-Farber Cancer Institute. Dr. Thompson's clinical interests include endoscopic surgery as applied to foregut conditions, pancreatobiliary disease, postsurgical complications, and bariatric endoscopy. He spends the majority of his time performing these advanced endoscopic procedures and also cares for patients in the ambulatory setting and on the gastroenterology inpatient consult service. The remainder of his time is devoted to research activities in endoscopic surgery, with a focus on device development, endoscopic education, and clinical outcomes. He currently has active clinical, translational, bench, and large animal protocols. He

has also led several multicenter clinical trials. His research has resulted in numerous patents, the development of new endoscopic procedures, and over 200 publications. Some of his important clinical innovations include the development of new endoscopic techniques for treating pancreatic necrosis, gastric outlet obstruction, sleeve gastrectomy stenosis, pancreatojejunal anastomotic strictures, and postsurgical complications. He was responsible for much of the early work in bariatric endoscopy, helping to pioneer the field, and edited the first textbook on the subject. In addition to these clinical innovations, he developed an endoscopic part-task simulator that is used by many fellowship programs. He was a founding member of the original NOTES working group and founding chair for the Association of Bariatric Endoscopy (ABE). These accomplishments have led to a broad clinical referral base, and national and international invitations for lectureships and live case demonstrations. He has mentored more than 20 fellows, many of whom have gone on to thrive in prestigious academic institutions, and he established the first Bariatric Endoscopy Fellowship.

**i** The AJG Lecturer is chosen by the Co-Editors of The American Journal of Gastroenterology with approval from the ACG Educational Affairs Committee and the ACG Board of Trustees.

### J. EDWARD BERK DISTINGUISHED LECTURE

#### A Septuagenarian's Evolving Reflections on the Practice of Medicine

Lawrence J. Brandt, MD, MACG

Tuesday, October 27 | 4:00 pm – 4:30 pm (ET)

Lawrence Brandt, MD, MACG, received his MD degree from the SUNY Health Sciences Center in Brooklyn, NY. Dr. Brandt did his residency and fellowship at the Mount Sinai Hospital in NY. He then served in the Army as a gastroenterologist stationed in Stuttgart, Germany. After military discharge, Dr. Brandt joined the staff of Montefiore Medical Center in the Bronx, NY, where he currently is Emeritus Chief of Gastroenterology and Professor of Medicine and Surgery at the Albert Einstein College of Medicine. Dr. Brandt has authored or edited more than 250 scientific publications and 10 books, one of which, *Sleisenger and Fordtran's Gastrointestinal and Liver Disease* (8th edition), won first prize in the British Medical Association's Medical Book Competition. He has received many awards, chief among which are the Distinguished Educator Award of the AGA, the Distinguished Educator Award of the ASGE, the Clinical Achievement Award of the ACG, the Berk/Fise Clinical Achievement Award from the ACG, the William Dock, MD Master Teacher Award of SUNY, Downstate Medical Center, the Harry S. Gordon Award for Outstanding Clinical Teacher at Albert Einstein College of Medicine, and the Downstate Medical Center Alumni Achievement Medallion for Distinguished Service to American Medicine. He is an honorary NYPD Police Surgeon. Dr. Brandt is a Master of the ACG and served as President from 1992–1993. Dr. Brandt has given over 600 lectures nationally and internationally. He is an honorary member of the Argentine and Dominican Republic's Societies of Gastroenterology. He served 3 terms as a member of the American Board

of Internal Medicine (ABIM, Gastroenterology) and served a 10-year appointment as Editor of the Focal Points section of *Gastrointestinal Endoscopy*. Dr. Brandt's interests include ischemic and vascular disorders of the GI tract, irritable bowel syndrome, *C. difficile* infection, fecal microbiota transplantation, and the doctor-patient relationship.

**i** The J. Edward Berk Distinguished Lecture is awarded to individuals prominent in gastroenterology or a related area. The lecturer is nominated by the ACG President and the appointment is subject to approval by the ACG Board of Trustees. The lectureship was established in recognition of the significant contributions made by J. Edward Berk, MD, MACG, to clinical gastroenterology during his long and distinguished clinical and academic career.

### Emily Couric Memorial Lecture & Conversation with Katie Couric

Katie Couric

**Tuesday, October 27 | 8:00 pm – 9:00 pm (ET)**

At the invitation of ACG President Dr. Mark Pochapin, Katie Couric will present a lecture named in honor of her late sister, the Emily Couric Memorial Lecture established by the College in partnership with the Virginia Gastroenterological Association and the ODSGNA in 2006. Ms. Couric is an award-winning journalist, New York Times best-selling author and a co-founder of Stand Up To Cancer (SU2C). Since its launch in 2008, Stand Up To Cancer has raised more than \$600 million to support cutting-edge collaborative science and its research has contributed to six new FDA approved therapies. In 2017, she founded Katie Couric Media (KCM), which has developed a number of media projects, including a daily newsletter, a podcast, digital video series and several documentaries. KCM works with purpose driven brands to create premium content that addresses important social issues like gender equality, environmental sustainability and mental health. Couric was the first woman to solo anchor a network evening newscast, serving as anchor and managing editor of the CBS Evening News from 2006 to 2011 following 15-years as co-anchor of NBC's Today show. She also hosted a syndicated show and served as the Yahoo Global News Anchor until 2017. She has won a duPont-Columbia, a Peabody, two Edward R. Murrows, a Walter Cronkite Award, and multiple Emmys. She was twice named one of *Time* magazine's 100 most influential people and was a *Glamour Magazine* woman of the year three times. She has also received numerous awards for her cancer advocacy work; honored by both the Harvard and Columbia schools of public health, the American Cancer Society and The American Association of Cancer Researchers. In addition to writing *The Best Advice I Ever Got: Lessons from Extraordinary Lives*, Couric's memoir will be published in the Fall of 2021. Ms. Couric has also published in *The American Journal of Gastroenterology*, "An Unexpected Turn: My Life as a Cancer Advocate," in May 2016.

**i** The Emily Couric Memorial Lecture, developed by the ACG, the Virginia Gastroenterological Society, and the Old Dominion Society of Gastroenterology Nurses and Associates, is in honor of Virginia State Senator Emily Couric, who died of pancreatic cancer in October of 2001. Senator Couric was a strong advocate for health care issues, particularly in her instrumental work to pass the nation's first legislation mandating health insurance coverage for colorectal cancer screening.

## DAVID Y. GRAHAM LECTURE

### From Hepatitis C to COVID-19: Can We Triumph Again?

Ira M. Jacobson, MD, FACP

**Wednesday, October 28 | 3:00 pm – 3:30 pm (ET)**

Ira Jacobson, MD, FACP, earned his BS from Yale University, and MD from Columbia University College of Physicians and Surgeons. After completing an internship and residency at the University of California San Francisco, he trained as a fellow in gastroenterology at Massachusetts General Hospital. In 1984, he joined the faculty at Weill Cornell Medical College and New York Presbyterian Hospital. During his 30 years at Weill Cornell, Dr. Jacobson served as Chief of the Division of Gastroenterology and Hepatology (1998-2015) and was the Vincent Astor Distinguished Professor of Medicine and Medical Director of the Center for the Study of Hepatitis C. From 2015 to mid-2017, he was Chair of Medicine at Mount Sinai Beth Israel Medical Center. He joined the faculty of NYU Langone Health as Director of Hepatology in August 2017. Dr. Jacobson is a Fellow of ACG, ACP, and AGA, and is a member of AASLD and EASL. In addition to an active practice with a focus on patients with liver disease, he has been an investigator in many trials on treatment for hepatitis B and C since the 1980s. He has been a PI and author of many trials on novel treatments for hepatitis C and B. His clinical research currently focuses on hepatitis B and nonalcoholic fatty liver disease. He served on the Gastroenterology and Transplant Hepatology Examination Committees of the ABIM, as Associate Editor of the *Journal of Hepatology*, and as a reviewer for several journals. He has authored or co-authored over 250 peer-reviewed papers, chapters, reviews, including papers in the *NEJM*, *Lancet*, *Gastroenterology*, *Hepatology*, *Journal of Hepatology*, *Journal of Viral Hepatitis*, and *Clinical Gastroenterology and Hepatology*. He also edited two books on ERCP and a volume on hepatitis B for *Clinics in Liver Disease*. He co-chaired the annual Viral Hepatitis Congress in Frankfurt, Germany from 2012-2017.

**i** The Graham Lecturer is chosen by the ACG President and is subject to approval by the ACG Board of Trustees. Established in 2004 in recognition of the many contributions to clinical gastroenterology made by David Y. Graham, MD, MACG, this named lectureship was made possible through a donation by Otsuka Pharmaceutical Co., Inc., and Meretek Diagnostics, Inc.

# VIRTUAL ACG 2020

**CONNECTION. COLLEGIALLY. CAMARADERIE. CLINICAL EDUCATION.** These have long been the hallmarks of ACG's Annual Scientific Meeting & Postgraduate Course. The signature events that are synonymous with ACG each year will likewise be central to the virtual meeting experience, including named and distinguished lectures, as well as the President's Plenary sessions and presentation of all oral abstracts—a showcase of the best clinical research.

# ACCREDITATION INFORMATION

## ACCREDITATION

The American College of Gastroenterology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

## CME/MOC

### GI PATHOLOGY AND IMAGING COURSE

The American College of Gastroenterology designates this Other activity (blended learning) for a maximum of 6 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 6 MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the learner to earn up to 6 MOC points in the American Board of Pediatrics' (ABP) Maintenance of Certification (MOC) program. It is the CME activity provider's responsibility to submit learner completion information to ACCME for the purpose of granting ABP MOC credit.

### WHAT'S NEW IN GI PHARMACOLOGY COURSE

The American College of Gastroenterology designates this Other activity (blended learning) for a maximum of 3.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 3.75 MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Successful completion of each CME activity, which includes participation in the evaluation component, enables the participant to earn MOC points in the American Board of Internal Medicine's (ABIM) and American Board of Pediatrics' (ABP) Maintenance of Certification (MOC) programs. **Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity.** It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting MOC credit.

An equal number of CME credits and MOC points will be awarded for each course, as reflected in the maximums listed below. Please note, claiming CME and MOC are TWO DIFFERENT processes, and you **cannot make changes or adjust your CME credits after you submit** your course evaluation.

### Practice Management Summit at ACG:

Something for Everyone Course	7 <i>AMA PRA Category 1 Credits™</i> and MOC Points
GI Pathology & Imaging Course	6 <i>AMA PRA Category 1 Credits™</i> and MOC Points
What's New in GI Pharmacology Course	3.75 <i>AMA PRA Category 1 Credits™</i> and MOC Points
Postgraduate Course	19.5 <i>AMA PRA Category 1 Credits™</i> and MOC Points
Annual Meeting	31 <i>AMA PRA Category 1 Credits™</i> and MOC Points

ABIM Board Certified physicians with an end of 2020 MOC deadline will need to complete their MOC submission by December 31, 2020 in order for the MOC points to count for 2020. **No MOC credit will be awarded after March 1, 2021 for these activities. ABP diplomates should claim their MOC for these activities by December 1. All ABP learner completion data should be submitted within 30 days of activity completion.**

## CLAIM YOUR CME & MOC IN 4 EASY STEPS

### STEP 1: COMPLETE A CME EVALUATION FOR EACH COURSE.\*

Visit [HTTPS://EVALS.GI.ORG/AM/2020](https://evals.gi.org/am/2020) to complete your CME Evaluation. MOC points will automatically be set to the number of CME credits claimed for the activity. **Once you submit your evaluation for CME credits, this total CANNOT BE ADJUSTED.**

\*ASGE will provide information on how to claim CME and MOC following the completion of the ASGE Virtual Endoscopy Course.

### STEP 2: ACCESS THE MOC ASSESSMENT FOR THE COURSE.

After the CME evaluation has been completed, the MOC link on the evaluation page ([HTTPS://EVALS.GI.ORG/AM/2020](https://evals.gi.org/am/2020)) will be accessible. Access to the MOC assessment is only provided AFTER completing the course evaluation and claiming CME credit. ABP MOC can be claimed by emailing [education@gi.org](mailto:education@gi.org) to obtain the required forms for completion. ABP diplomates can NOT use the MOC link on the evaluation site to claim MOC points as outlined in Step 3.

### STEP 3: COMPLETE THE ASSESSMENT AND SUBMIT FOR MOC POINTS.

Participants are asked to reflect on and summarize what they have learned, and indicate what they will do differently, stop doing, or keep doing in their practice with more confidence, relative to identified key learning objectives.

**★ IMPORTANT NOTE:** You will need your 6-digit ABIM ID number and Date of Birth to submit your completion information to ACCME for the purpose of granting ABIM MOC points.

### STEP 4: REVIEW FEEDBACK.

After a successful submission, participants are prompted to review the expert feedback on the self-reflection question(s).

# ON-DEMAND SESSIONS

**THE RICH ARRAY OF EDUCATIONAL CONTENT FOR VIRTUAL ACG 2020** will be available on-demand approximately two weeks before the meeting and will remain available until January 31, 2021. Please refer to pages 10-17 for the corresponding live-streaming sessions that will offer opportunities for live Q&A with the faculty.

## WHAT'S NEW IN GI PHARMACOLOGY COURSE

Course Directors: Brooks D. Cash, MD, FACP, and William D. Chey, MD, FACP

### COURSE DESCRIPTION

Experts will define and describe the use and management of new pharmacological therapies as well as provide updates on current pharmacological treatment options for a variety of GI disorders during the What's New in GI Pharmacology Course. Attendees can watch the on-demand presentations prior to the corresponding live-streamed Q&A session (see page 10 for the What's New in GI Pharmacology Course live-streaming schedule.)

### ON-DEMAND PRESENTATIONS

#### Causes and Solutions for PPI-Refractory Heartburn

*Rena Yadlapati, MD, FACP*

Describe the evaluation, pathophysiology, and prescription options for patients who may have heartburn from PPI use.

#### The Latest "Need to Know" Information on Gastric Acid Inhibition

*Michael F. Vaezi, MD, PhD, MSc(Epi), FACP*

Identify the latest key information that clinicians need to know about H2RAs, PPIs, and PCABs.

#### Disaccharidase Deficiencies: When to Consider and How to Treat?

*William D. Chey, MD, FACP*

Discuss the prevalence of lactase and SI deficiency, means of diagnosis, and treatment options.

#### Exocrine Pancreatic Insufficiency: What the Busy Clinician Needs to Know

*David C. Whitcomb, MD, PhD, FACP*

Recognize exocrine pancreatic insufficiency, how to diagnose it, and how to treat it.

#### The Ins and Outs of Fecal Incontinence Treatments

*Brooks D. Cash, MD, FACP*

Define treatment options for fecal incontinence including diet, fiber, medical therapies, biofeedback, and surgery.

#### Choosing Among the Expanding Armamentarium of IBD Therapies

*Sunanda V. Kane, MD, MSPH, FACP*

Examine the different classes of IBD therapies, balancing indication for use, mechanisms of action, and adverse effects.

#### Contemporary Management of Hepatitis B

*Kimberly A. Brown, MD*

Explain the current standard of care for HBV and emerging therapeutic approaches.

#### Celiac Disease: Will There Ever Be a Medicine Available?

*Joseph A. Murray, MD, FACP*

Summarize the drug development pipeline for celiac disease medications.

### FACULTY

## GI PATHOLOGY AND IMAGING COURSE

Course Directors: Olga C. Aroniadis, MD, MSc, and Anita Afzali, MD, MPH, FACG

### COURSE DESCRIPTION

ACG's Pathology and Imaging in the Evaluation of Gastrointestinal Disease Course includes four mini-sessions, each devoted to new developments and old problems in pathology and imaging of a specific portion of the GI tract that will be of special interest to the clinical gastroenterologist. A popular biennial offering of the College, this year's course expands the mini-session concept to include a combination lecture by a pathologist and a radiologist with the addition of correlated endoscopic images. Attendees can watch the on-demand presentations prior to the corresponding live-streamed Q&A session (see page 10 for the GI Pathology and Imaging Course live-stream schedule.)

### PROGRAM OBJECTIVES

At the conclusion of this course, participants should be able to:

- ✓ Understand current concepts of radiology and pathology in the evaluation and treatment of patients with gastrointestinal diseases.
- ✓ Identify radiologic findings related to gastrointestinal diseases of the esophagus, stomach, small and large intestine, liver, gallbladder, and pancreas.
- ✓ Evaluate both basic and advanced pathology findings in patients with gastrointestinal diseases through close examination of representative photomicrographs.

Correlate typical radiology and pathology findings reflective of both the normal and abnormal physiology and pathophysiology.

**NEW FOR ACG 2020!** We have added an ACG All Access Pass, combine the three ACG Friday courses with the Postgraduate Course and the Annual Meeting plus the two bonus sessions (formerly the Learning Lunches and Breakfast Sessions) and save 20%! Register for any two courses and save up to 10%!

### ON-DEMAND PRESENTATIONS

#### Swallowing and Digestion: Pathology and Imaging of the Esophagus and Stomach

*Pathologist: Nicole C. Panarelli, MD*

*Radiologist: Douglas S. Katz, MD, FACR*

#### Understanding the Hepatobiliary System: Pathology and Imaging of the Liver and Gallbladder

*Pathologist: Scott R. Owens, MD*

*Radiologist: Zarine Shah, MD*

#### Polyps, Tumors, IBD, and More: Pathology and Imaging of the Colon and Rectum

*Pathologist: Emma E. Furth, MD*

*Radiologist: David J. Vining, MD*

#### Exploring the GI Tract: Pathology and Imaging of the Small Bowel and Pancreas

*Pathologist: David N. Lewin, MD*

*Radiologist: Jessica G. Zarzour, MD*

# FRIDAY COURSES

## ON-DEMAND SESSIONS (CONT.)

### PRACTICE MANAGEMENT SUMMIT AT ACG: SOMETHING FOR EVERYONE

Course Directors: Harish K. Gagneja, MD, FACG, and Sapna V. Thomas, MD, FACG

#### COURSE DESCRIPTION

Healthcare delivery is transforming at an accelerating rate, but opportunities in the field of gastroenterology remain strong for private practice physicians to claim ownership of their practices and their careers. Managing challenges to independence will be even more important during these changing times, but that alone will not be enough for success. Participants in the Practice Management Summit at ACG: Something for Everyone Course will hear from colleagues about new and innovative ways to improve the operations, enhance productivity, and guarantee the success of their practices. Attendees can watch the on-demand presentations prior to the corresponding live-streamed Q&A session (see page 10 for the Practice Management Summit live-stream schedule.)

#### ON-DEMAND PRESENTATIONS

##### SESSION 1: YEAR IN REVIEW: UPDATES FOR 2020

###### Legislative Updates and 2020 Elections: Do We Have a Crystal Ball?

*John F. Jonas, JD*

Discuss the legislative landscape, the 2020 elections, and the impact to the practice of medicine and gastroenterology in particular.

###### Lessons Learned From Going the Private Equity Route

*Jay N. Yepuri, MD, MS, FACG*

Analyze the role and influence of private equity in GI and how it will affect the future.

###### Coding Updates

*Kathleen A. Mueller, RN, CPC, CCS-P, CMSCP*

Explain coding updates as they pertain to the practice of gastroenterology.

##### SESSION 2: IMPROVING EFFICIENCY IN YOUR PRACTICE

###### In Pursuit of Efficiency: How Tech Can Help Us Save Time and Stay Sane

*Sapna V. Thomas, MD, FACG*

Identify potential time-saving tricks to decrease frustration with EMR systems.

###### Artificial Intelligence in Gastroenterology: The Future Is Here

*Prateek Sharma, MD, FACG*

Discuss the potential role of AI in the general practice of GI.

###### Time Well Spent: Encouraging Staff to Perform at Their Top Tier

*Shivangi T. Kothari, MD, FACG*

Outline typical daily tasks that can be delegated to other staff members to maximize efficiency.

##### SESSION 3: IMPORTANCE OF "CUSTOMER CARE" IN YOUR PRACTICE

###### Customer Care in Your Medical Practice: Improving Your Bottom Line

*Harish K. Gagneja, MD, FACG*

Discuss various ways to improve the customer care for our patients to provide top notch care.

###### Effective Patient Education and Communication

*Amy S. Oxentenko, MD, FACG*

Explain ways to improve communication and educating our patients regarding their disease process.

###### Improving Flow in the Endoscopy Suite: Customer Care Experience

*Klaus Mergener, MD, PhD, FACG*

Identify ways to improve the patient flow in our endoscopy suites to improve efficiency, safety and customer care experience.

##### SESSION 4: COMPENSATION AND FINANCIAL MANAGEMENT IN YOUR PRACTICE

###### Cost Containment in GI Medical Practice Without Cutting Corners

*Louis J. Wilson, MD, FACG*

Discuss various ways to save money and improve the bottom line in GI practice without sacrificing quality.

###### Compensation for Non-Revenue Generating Activities

*David J. Hass, MD, FACG*

Formulate ways to compensate physicians for the essential activities which are non-revenue generating.

##### SESSION 5: LEADERSHIP AND EMOTIONAL INTELLIGENCE

###### What It Takes to Be a Leader: Qualities of an Effective Leader

*Mark B. Pochapin, MD, FACG, ACG President*

Identify the qualities of effective leaders in academics and private practice.

###### Emotional Intelligence (EI): What Are You Talking About?

*Aasma Shaukat, MD, MPH, FACG*

Define emotional intelligence and ways to use it in your day-to-day interactions.

###### The Art and Science of Recruiting and Retaining Top Talent

*Vivek Kaul, MD, FACG*

Discuss various ways and strategies to recruit and retain top talent in private practice and academic settings.

# FRIDAY COURSES

## ON-DEMAND SESSIONS (CONT.)

### ASGE VIRTUAL ENDOSCOPY COURSE: CREATIVE SOLUTIONS TO EVERYDAY ENDOSCOPIC CHALLENGES

Course Directors: Uzma D. Siddiqui, MD, FASGE, and Sachin B. Wani, MD, FASGE

The live-stream sessions for this course will be recorded and will be available on-demand within one week of their broadcast date to view at your convenience (see page 11 for the ASGE Virtual Endoscopy Course live-stream schedule.)

#### COURSE DESCRIPTION

ASGE's esteemed faculty will review and highlight a number of emerging diagnostic and therapeutic endoscopic techniques in the literature and its implications in clinical practice. Discussing the most recent published guidelines will be a consistent theme throughout this course. The program is divided into seven topic focused sessions:

- Session 1: Best Practices in Colonoscopy
- Session 2: Endoscopy in the Esophagus
- Session 3: Bariatric Endoscopy Update
- Session 4: Endoscopic Survival in the Covid ERA
- Session 5: Pancreaticobiliary Adventures
- Session 6: Don't Panic: Evidence Based Approach to Managing GI Emergencies
- Session 7: EUS Enigmas and More

In this era of the COVID-19 pandemic, expert faculty members will provide guidance on preparing for a similar pandemic in the future. Faculty will discuss how to mitigate burnout; a growing problem for gastroenterologists. Key discussions will include updates in best practices in colonoscopy. This session will primarily highlight the most recent recommendations for surveillance after colonoscopy and polypectomy and for endoscopic removal of colorectal lesions. Faculty will also discuss optimal strategies for examination of the colonic polyps and discuss the role of artificial intelligence. The role of advanced resection techniques such as ESD will be highlighted in this session.

This course will provide a state of the art update in Bariatric Endoscopy and provide practical tips for performing endoscopy in patients with altered anatomy. This will be followed by a detailed review of important issues in pancreaticobiliary disorders. Faculty will provide practical guidance on achieving high rates of cannulation during ERCP in clinical practice and optimizing outcomes in ERCP with a focus on reduction in post-ERCP pancreatitis rates. Additional topics will include the latest approach in the management of choledocholithiasis, biliary drainage in malignant obstruction and management of pancreatic fluid collections including walled off pancreatic necrosis.

Esophageal topics covered in this course will focus on optimal approach to endoscopic examination of patients with Barrett's esophagus and endoscopic eradication therapies in patients with Barrett's related neoplasia. Presentations will review the latest guidelines in the management of patients with achalasia and provide a practical approach to management of esophageal

strictures. This course will include presentations on management of most GI emergencies and will provide a pragmatic and algorithmic approach to managing these emergencies in clinical practice. Faculty will review current guidelines on the evaluation and management of patients with pancreatic cystic lesions and highlight the expanding role of EUS.

Upon completion of this educational activity, physicians will be able to:

- Recognize recent recommendations for follow-up after colonoscopy and polypectomy and endoscopic removal of colorectal lesions (knowledge)
- Review the latest approaches to bariatric endoscopy and performance of endoscopy in the post-bariatric patient population (comprehension)
- Describe techniques and approaches for optimizing outcomes in ERCP and recognize the role of EUS in contemporary endoscopic practice (knowledge)
- Recognize the optimal endoscopic approach to patients with Barrett's esophagus and management of patients with Barrett's related neoplasia. (knowledge)
- Identify techniques and therapies for management of common GI emergencies such as bleeding, perforations and cholangitis. (knowledge)

#### ON-DEMAND PRESENTATIONS

##### SESSION 1: BEST PRACTICES IN COLONOSCOPY

###### Updated Surveillance Guidelines after Colonoscopy and Polypectomy

*Douglas K. Rex, MD, MACG, MASGE*

###### Advanced Imaging in the Colon: Lights, Camera, Action!

*Tonya R. Kaltenbach, MD, MS, FACG, FASGE*

###### Optimal Resection Methods for Colon Polypectomy and EMR

*Douglas K. Rex, MD, MACG, MASGE*

###### More Tissue is the Issue: Role of ESD and FTRD

*Amrita Sethi, MD, MASGE*

##### SESSION 2: ENDOSCOPY IN THE ESOPHAGUS

###### Barrett's Basics: Screening and Surveillance Guidelines

*Sachin B. Wani, MD, FASGE*

###### Evolution of Endoscopic Therapy for Barrett's Dysplasia

*V. Raman Muthusamy, MD, FACG, FASGE*

###### Endoscopic Workup and Management of Achalasia: Can We Tunnel to Success?

*Amrita Sethi, MD, MASGE*

###### Endoscopic Plumbing for Esophageal Stricture

*Rehan Haidry, BSc (Hons), MRCP*

### SESSION 3: BARIATRIC ENDOSCOPY UPDATE

#### Bariatric Endoscopy Tools and Techniques in 2020

*Reem Z. Sharaiha, MD, MSc*

#### Scoping the Bariatric Patient: Dealing with Altered Anatomy and Post-op Complications

*Christopher Chapman, MD*

### SESSION 4: ENDOSCOPIC SURVIVAL IN THE COVID ERA

#### Ways to Minimize Physician Burnout

*Rajesh N. Keswani, MD*

#### Improving Quality in the Endoscopy Unit

*Vanessa M. Shami, MD, FACP, FASGE*

#### Preparing for the Next Pandemic

*Klaus Mergener, MD, PhD, MBA, FACP, FASGE*

### SESSION 5: PANCREATICOBILIARY ADVENTURES

#### Tricks for Ensuring Successful Cannulation at ERCP

*Marianna Arvanitakis, MD, PhD*

#### Management of Biliary Strictures: Malignant vs. Benign

*V. Raman Muthusamy, MD, FACP, FASGE*

#### Sweep, Crush, and Clear: Endotherapy for Bile Duct Stones

*Jeanin E. Van Hooft, MD, PhD, FASGE*

#### Optimizing ERCP Outcomes

*Badih Joseph Elmunzer, MD, MPH*

#### Dealing with Pancreatic Collections: When to Drain and How

*Ji Young Bang, MD, MPH*

### SESSION 6: DON'T PANIC: EVIDENCE-BASED APPROACH TO MANAGING GI EMERGENCIES

#### Halting the Hemorrhage: Esophageal and Gastric Variceal Bleeding

*Anna Duloy, MD*

#### Achieving Hemostasis in Non Variceal UGI Bleeding

*Alan N. Barkun, MD, CM, MSc, FACP, FASGE*

#### Optimal Timing of ERCP in Cholangitis Management

*Jeanin E. Van Hooft, MD, PhD, FASGE*

#### Damage Control in Perforations: Endoscopic Closure Techniques

*Payal Saxena, MBBS, FRACP*

#### Paving the Way for Patency: Managing Duodenal and Colonic Obstruction

*Kevin E. Woods, MD, MPH*

### SESSION 7: EUS ENIGMAS AND MORE

#### Pancreatic Cyst Guidelines: What You Need to Know

*Vanessa M. Shami, MD, FACP, FASGE*

#### Thinking Outside the Box: Therapeutic EUS

*Uzma D. Siddiqui, MD, FACP, FASGE*

# POSTGRADUATE COURSE

## ON-DEMAND & BONUS SESSIONS

### PROGRAM DESCRIPTION

With the need to remain abreast of the many new and emerging advancements in the field of gastroenterology and the patient volume increasing as the population ages, the clinical gastroenterologist is more challenged than ever to deliver the best patient care in each situation they encounter. Research across gastroenterology and hepatology areas progresses at a rapid pace. Advances in technology, diagnostic modalities, and therapeutic options have had a positive impact on the management of many GI diseases. Scientific education, based on critical foundational knowledge and clinical skills, the communication of practical methods for treatment, and the ability to integrate the newest tools in diagnosis with the latest therapeutic/treatment options, are key necessities for the GI clinician to deliver top quality patient care. This course will provide updates on a variety of gastroenterology and hepatology subjects including IBD therapy, quality in colorectal cancer screening, functional GI disorders, esophageal disorders, pancreaticobiliary disease, and liver disease. Didactic on-demand lectures, complemented by live-streaming question and answer sessions, will be delivered on the latest topics in gastroenterology and hepatology. Attendees can watch the on-demand presentations prior to the corresponding live-streamed Q&A sessions (see page 12 for the Postgraduate Course live-stream schedule.)

The program is designed primarily for clinicians in GI/hepatology, as well as physician assistants, nurse practitioners, and other advanced practice providers interested in a scientifically sound approach to the management of GI and liver illnesses.

### POSTGRADUATE COURSE ON-DEMAND SESSIONS

#### **SESSION 1A: IBD: A Personalized Approach to a Complex Disease**

- **Pearls in IBD Management**

*Laura E. Raffals, MD, MS, FACG*

Appreciate importance of early intervention treatment strategies, the role of therapeutic monitoring, and alternative causes of symptoms other than inflammation in the IBD patient.

- **Updates in the Treatment of Crohn's Disease**

*David A. Schwartz, MD, FACG*

Review current treatment strategies for moderate to severe Crohn's disease.

- **Positioning Treatment in Ulcerative Colitis**

*Marla C. Dubinsky, MD*

Discuss positioning of therapies to improve long-term outcomes in ulcerative colitis.

- **De-escalation of IBD Treatment: When Can We Back Off?**

*David T. Rubin, MD, FACG*

Review evidence and strategies for de-escalation of therapy in IBD patients.

#### **SESSION 1B: Esophagus**

- **Esophageal Dysmotility: Evaluation and Treatment**

*John E. Pandolfino, MD, MSCI, FACG*

Discuss the differential diagnosis of esophageal dysmotility, approach to evaluation, and current management concepts.

- **Management of Esophageal Strictures**

*Vani J.A. Konda, MD, FACG*

Outline the latest evidence-based recommendations for management of benign and malignant esophageal strictures.

- **Multimodal Management of BE Dysplasia/Neoplasia**

*Nicholas J. Shaheen, MD, MPH, MACG*

Demonstrate the current state-of-the-art approach to endoscopic management of dysplastic Barrett's esophagus and early esophageal neoplasia.

- **Eosinophilic Esophagitis Treatment Approaches in 2020**

*Prasad G. Iyer, MD, FACG*

Analyze evidence-based approaches to the treatment of eosinophilic esophagitis including dietary modifications, medical therapy, and endoscopic esophageal dilation.

#### **SESSION 1C: Endoscopy**

- **Risk Management, Quality, and Safety in the Endoscopy Unit**

*Vivek Kaul, MD, FACG*

Identify the latest guideline and evidence-based recommendations as well as best practices to ensure quality and safety in the endoscopy unit and strategies to mitigate risk.

- **Evidence-Based Approach to Endosurgery: Does It Make the Cut?**

*Navtej S. Buttar, MD*

For the general gastroenterologist, review appropriate utilization of endoscopic resection, techniques, and devices in various clinical scenarios based on best evidence and guidelines.

- **Interventional EUS: A Primer for the General Gastroenterologist**

*Laith H. Jamil, MD, FACG*

Summarize the well-established and paradigm shifting interventional EUS procedures that the general gastroenterologist needs to be aware of, including limitations, risks, benefits, and alternatives.

### **SESSION 2A: Functional GI Disorders – Leveraging the Mind-Gut Connection**

- **Brain-Gut Axis and Its Interaction With the Enteric Microbiome**  
*Lin Chang, MD, FACC*  
Explore the communication between the brain and the gut and role of the gut microbiome in functional GI disorders.
- **Positive Psychology Interventions for Functional GI Disorders**  
*Laurie A. Keefer, PhD*  
Discuss opportunities for gastroenterologists to incorporate positive psychology interventions into their patient care strategies.
- **A Practical Approach to the Use of Anti-Depressants for Functional Disorders**  
*Brian E. Lacy, MD, PhD, FACC*  
Review indications and use of anti-depressants for treatment of functional GI disorders.
- **Dietary and CAM Approaches for Management of IBS**  
*William D. Chey, MD, FACC*  
Examine the latest evidence for use of diet and alternative medicines for IBS management.

### **SESSION 2B: Hepatology Issues in Everyday Practice**

- **Multidisciplinary Management of the NASH Patient**  
*Arun J. Sanyal, MD*  
Describe the importance of a multidisciplinary management approach to the patient with obesity, including lifestyle, medical, endoscopic, and surgical management options.
- **Liver Disease in Pregnancy**  
*Nancy S. Reau, MD, FACC*  
Review the approach to differential diagnosis and management of various types of clinically significant liver conditions that develop during pregnancy.
- **Drug-induced Liver Injury**  
*K. Gautham Reddy, MD, FACC*  
Discuss the current concepts related to investigation and management of drug-induced liver diseases.
- **Viral Hepatitis Treatment Update**  
*Kimberly A. Brown, MD*  
Summarize the recent advances in viral hepatitis treatment and discuss future trends in this realm, to include access to care, healthcare economics, and public health impact issues.
- **Evaluation of the Patient With a Liver Mass**  
*Stanley M. Cohen, MD, FACC*  
Discuss principles, strategies, and best practice approaches for evaluating liver masses based on differential diagnosis.

### **SESSION 2C: All Things Colon!**

- **Colorectal Cancer Screening and Surveillance - Incorporating Guidelines Into Practice**  
*Mark B. Pochapin, MD, FACC*  
Summarize colorectal cancer screening guidelines and identify the role of noninvasive screening methods.
- **Management of Lower GI Bleeding**  
*John R. Saltzman, MD, FACC*  
Review diagnostic and therapeutic options for management of diverticular bleeding.
- **Hereditary Colorectal Polyposis and Cancer Syndromes**  
*Carol A. Burke, MD, FACC*  
Review diagnosis and management of hereditary colon cancer syndromes.

### **SYMPOSIUM A: Practical Tips and Pearls in IBD Management**

- **Managing the Hospitalized IBD Patient**  
*Christina Y. Ha, MD, FACC*  
Discuss therapeutic approaches to the hospitalized IBD patient including importance of nutrition, VTE prophylaxis, and pain management.
- **IBD Surveillance, Chromoendoscopy, and Future Directions**  
*Samir A. Shah, MD, FACC*  
Review appropriate surveillance strategies and role of chromoendoscopy in practice and discuss proper methods for performing chromoendoscopy.
- **Preventive Care in IBD**  
*Millie D. Long, MD, MPH, FACC*  
Discuss best practice recommendations for optimal preventive care in the IBD patient.

### **SYMPOSIUM B: Pancreaticobiliary Disease: Recent Advances**

- **Acute Pancreatitis: Why Are Patients Still Dying?**  
*Timothy B. Gardner, MD, MS, FACC*  
Discuss the importance of goal-directed fluid therapy and multidisciplinary medical management in patients with severe acute pancreatitis to ensure good outcomes.
- **Screening for Sporadic Pancreatic Cancer: An Update**  
*Suresh T. Chari, MD, FACC*  
Discuss recent advances and data in pancreas cancer screening.
- **Evaluation/Management of the Indeterminate Biliary Stricture**  
*Prabheleen Chahal, MD, FACC*  
Review best practice approaches to the evaluation and management of indeterminate biliary strictures.

### **SYMPOSIUM C: Obesity**

- **Bariatric Endoscopy: An Inflated Sense of Success?**  
*Allison Schulman, MD, MPH*  
Interpret the evidence-based literature supporting the role of endoscopic interventions in patients with obesity.
- **Bariatric Surgery: Cannot Bypass the Surgeon!**  
*John M. Morton, MD, MPH, MHA, FACS*  
Compare surgical options for optimal outcomes in patients with obesity.
- **Medical and Behavioral Management of Patients with Obesity: The Foundation for Long-Term Success**  
*Shelby A. Sullivan, MD, FACC*  
Recognize the importance of lifestyle, nutrition, and behavioral interventions as part of the comprehensive approach to obesity management.

# POSTGRADUATE COURSE ON-DEMAND & BONUS SESSIONS (CONT.)

## **SYMPOSIUM D: A Practical Approach to Anorectal Disorders**

- **The Role of Pelvic Floor Retraining for Dyssynergic Defecation**  
*Satish S.C. Rao, MD, PhD, FACG*  
Outline treatment approaches for dyssynergic defecation disorders.
- **Modern Approaches to Fecal Incontinence**  
*Stacy B. Menees, MD, MS*  
Appraise available therapies for fecal incontinence.
- **Anorectal Manometry Testing: A Primer for the General Gastroenterologist**  
*Darren M. Brenner, MD, FACG*  
Review anorectal manometry testing and its role in clinical practice.

## **SYMPOSIUM E: Endoscopy**

- **All the Endoscopy vs Surgery RCTs I Could Come Up With!**  
*Michael B. Wallace, MD, MPH, FACG*  
Discuss recent landmark RCTs that have resulted in a huge impact on GI medical-surgical practice.
- **GI Emergencies: How to Optimize Outcomes in Dire Circumstances**  
*John R. Saltzman, MD, FACG*  
Apply strategies to achieve the best outcomes in patients presenting with acute GI emergencies.
- **Endoscopy in Special Populations**  
*Douglas G. Adler, MD, FACG*  
Evaluate the approach to endoscopy in unique patient populations (pediatrics, geriatrics, pregnancy, etc.) with higher risk and special needs or challenges.

## **SYMPOSIUM F: Autoimmune and Cholestatic Liver Disease**

- **Predictors of Disease Course in Primary Sclerosing Cholangitis**  
*Kris V. Kowdley, MD, FACG*  
Review the clinical course of primary sclerosing cholangitis and predictors of disease progression and complications.
- **Advances in Primary Biliary Cholangitis Treatment**  
*David E. Bernstein, MD, FACG*  
Discuss precision treatment of primary biliary cholangitis.
- **Autoimmune Hepatitis**  
*Paul Y. Kwo, MD, FACG*  
Describe the clinical management of patients with autoimmune hepatitis.

## **POSTGRADUATE COURSE BONUS SESSIONS**

*(Formerly Learning Lunches) - Must be registered for the Postgraduate Course and purchase access to these sessions.*

### **Evaluating the Patient with Chronic Diarrhea**

*Lea Ann Chen, MD, FACG*

Discuss the principles and evidence-based approach to evaluating a patient with chronic diarrhea.

### **Tips and Tricks for Difficult Biliary Cannulation**

*Douglas K. Pleskow, MD*

Review evidence-based recommendations along with practical tips and tricks that are useful at ERCP when faced with a difficult biliary cannulation.

### **Infectious Complications of IBD**

*Jordan E. Axelrad, MD, MPH*

Identify infections commonly encountered in IBD patients and their management strategies.

### **What's the Real Story of Those Trending "Google MD" Diagnoses (POTS, Mast Cell Activation Syndrome, Ehlers Danlos, and More!)**

*Linda Anh B. Nguyen, MD*

Review the evidence of trending "Google MD" diagnoses our patients expect us to know and understand their associated gastrointestinal symptoms.

### **A Practical Approach to Checkpoint Inhibitor Immune-Related Gastrointestinal Adverse Events**

*Kara M. De Felice, MD*

Discuss mechanisms and treatment approaches of gastrointestinal immune-related adverse events from checkpoint inhibitor therapy.

### **Approach to Evaluation of Abnormal Liver Tests**

*Nancy S. Reau, MD, FACG*

Discuss the approach to evaluation of abnormal liver tests to formulate a differential diagnosis.

### **Ischemic Disorders of the GI Tract**

*Lawrence J. Brandt, MD, MACG*

Discuss common ischemic disorders of the GI tract and appropriate diagnostic and management approaches.

### **MACRA/MIPS/Public Policy Update**

*Carol D. Koscheski, MD, FACG*

Review the current healthcare economics landscape relevant to GI practice, including value-based purchasing and alternate payment models.

### **Optimizing the Colonoscopy Bowel Prep**

*Audrey H. Calderwood, MD, MS, FACG*

Discuss the importance of high-quality bowel prep and tips and tricks to optimize the prep for colonoscopy.

### **The Risk of PPI Therapy: What's the Real Story?**

*Paul Moayyedi, MB ChB, PhD, MPH, FACG*

Interpret the latest evidence vis a vis PPI risks and benefits and discuss best practice recommendations for clinical use.

### **GI Bleeding 2020: Tools, Techniques, Tips and Tricks!**

*Seth A. Gross, MD, FACG*

Describe updates in endoscopic management of GI bleeding including newer devices, techniques, and best practice guidelines.

#### **Pancreatic Cysts: Which Ones Matter?**

*Vanessa M. Shami, MD, FACC*

Discuss etiology, diagnosis, and management of pancreatic cysts incorporating clinical guidelines.

#### **Managing the Difficult Colon Polyp**

*Tonya R. Kaltenbach, MD, MS, FACC*

Describe the approach and technical aspects of managing difficult colon polyps with an evidence-based perspective.

#### **The Difficult Foreign Body: Tools and Techniques**

*David A. Greenwald, MD, FACC*

Discuss novel endoscopic approaches and principles of safe and effective foreign body/food bolus management.

#### **Osler's Approach to Counseling the Functional GI Patient**

*Brian E. Lacy, MD, PhD, FACC*

Formulate approaches to challenging patients with functional GI disorders through observation of the interview and counseling of a functional GI patient.

#### **The Pregnant IBD Patient: What You Really Need to Know**

*Sunanda V. Kane, MD, MSPH, FACC*

Discuss best practices for managing the pregnant IBD patient.

#### **Chronic Abdominal Pain: Approach to Evaluation and Treatment**

*Lin Chang, MD, FACC*

Apply evidence-based strategies and algorithms to efficiently diagnose and treat chronic abdominal pain states.

#### **Tackling GI Complications of Opioid Treatment**

*Darren M. Brenner, MD, FACC*

Define the management of opioid-related constipation and narcotic bowel syndrome.

#### **Endoscopic Treatments for GERD**

*Prasad G. Iyer, MD, FACC*

Appraise advances in the endoscopic management of GERD.

#### **Managing Refractory Symptoms in Celiac Disease**

*Amy S. Oxentenko, MD, FACC*

Identify causes and management strategies of refractory symptoms in patients with celiac disease.

#### **Gastric Metaplasia and Neoplasia Update**

*Douglas R. Morgan, MD, MPH, FACC*

Review pathogenesis, diagnosis, and treatment of gastrointestinal metaplasia, adenocarcinoma, lymphoma, carcinoid, and GIST.

#### **Evaluation and Management of Upper Gastrointestinal Motility Disorders**

*Linda Anh B. Nguyen, MD*

Describe the role of physiologic testing and management strategies for upper GI motility disorders.

#### **The Emerging Role of Diet in IBD Management: Physician and Nutritionist Perspectives**

*Jonathan A. Leighton, MD, FACC, and Kelly Issokson, MS, RD, CNSC*

Detail the newer therapies for the management of variceal bleeding.

#### **Management of Hemorrhoids**

*Waqar A. Qureshi, MD, FACC*

Evaluate recent advances, including techniques and technology, in the management of hemorrhoids.

# ANNUAL SCIENTIFIC MEETING

## ON-DEMAND & BONUS SESSIONS

### PROGRAM DESCRIPTION

Gain insight from the experts and learn practical take-home points when you attend the ACG Annual Scientific Meeting. Throughout the Scientific Meeting, faculty will present the latest in GI and hepatology, and how to incorporate findings into patient care. Hear about the latest clinical research during the oral presentation plenary sessions. In addition, there will be several featured lectures by world-renowned experts that delve into deeper discussion on a specific topic.

Thirteen scientific symposia and over 65 oral abstract presentations available as full-length, on-demand video recordings will allow attendees to hear lecture presentations from experts. Attendees can watch the on-demand presentations prior to the corresponding live-streamed Q&A sessions (see page 14 for the Annual Meeting live-stream schedule.)

In addition, 15 Bonus Sessions will be offered.

Finally, ACG's 8th Annual Endoscopy Video Forum will feature the best video presentations submitted from colleagues from across the U.S. and around the world. During this live-streamed session on October 26, attendees can tune in to watch the six selected videos, submit questions for the abstract authors, cast a vote for the best video, and then hear the winner announced live.

The Annual Scientific Meeting program is designed primarily for physicians in gastroenterology and hepatology, as well as physician assistants, nurse practitioners, and other advanced practice healthcare professionals interested in the latest information on state-of-the-art treatment of these illnesses.

### ANNUAL SCIENTIFIC MEETING ON-DEMAND SESSIONS

#### **SYMPOSIUM 1: Non-IBD Colitides**

- **Microscopic/Collagenous Colitis: Beyond Budesonide**

*Anita Afzali, MD, MPH, FACG*

Explain the diagnosis and etiologies of colitis, with a focus on treatment of difficult-to-treat disease.

- **Poo-pourri: Immune, NSAIDs, and Beyond**

*Aline Charabaty, MD*

Discuss the presentation and management of common non-IBD etiologies of colitis, including NSAID-induced, immune-mediated, and more.

- **Bugs, Vectors and Toxins: A Primer on Infectious Colitides**

*Brooks D. Cash, MD, FACG*

Recognize infectious colitides commonly seen in GI practice.

#### **SYMPOSIUM 2: Common Scenarios in Crohn's Disease: What Should I Do?**

- **Post-Operative Recurrence**

*Miguel D. Regueiro, MD, FACG*

Describe monitoring and medical treatment of Crohn's disease after surgical resection.

- **Management of Perianal Disease**

*David A. Schwartz, MD, FACG*

Explain traditional and experimental treatments used in management of perianal Crohn's disease.

- **Small Bowel Crohn's**

*Gil Y. Melmed, MD, MS, FACG*

Discuss the available tests for diagnosis and treatment of small bowel Crohn's using CT, MR, capsule, and balloon enteroscopy.

#### **SYMPOSIUM 3: Refractory Conditions of the Esophagus: Diagnosis and Treatment**

- **Approach to Refractory Esophageal Strictures**

*John C. Fang, MD*

Identify the different methods to successfully treat refractory esophageal strictures.

- **Identification and Management of Esophageal Manifestations of Dermatologic Conditions**

*Magnus Halland, MD*

Recognize the clinical, endoscopic, and histopathologic presentations of dermatologic diseases affecting the esophagus.

- **Management of Treatment Failure in Achalasia**

*Joel E. Richter, MD, MACG*

Explain management strategies for post myotomy reflux and chest pain in patients with achalasia

**REGISTER:** [ACGMEETINGS.GI.ORG](https://www.acgmeetings.org)

# ANNUAL SCIENTIFIC MEETING

## ON-DEMAND & BONUS SESSIONS

### **SYMPOSIUM 4: Recent Developments in Barrett's Esophagus**

- **New Tools for Diagnosis**

*Gary W. Falk, MD, MS, FACG*

Describe the recent advances in diagnosis and surveillance of Barrett's, including pre- and post-ablation which may allow for earlier, better detection of dysplasia and cancer.

- **Current Approach to Ablation**

*Nicholas J. Shaheen, MD, MPH, MACG*

Discuss the outcomes of studies on RFA/cryoablation for Barrett's esophagus—dysplastic and non-dysplastic—and the current controversies in treatment of BE.

- **Role of Chemoprevention**

*Joel H. Rubenstein, MD, FACG*

Evaluate current chemoprevention options—as well as drugs in the clinical trial stage—aimed at preventing dysplasia and cancer in patients with BE.

### **SYMPOSIUM 5: NASH**

- **Natural History of NAFLD**

*Cynthia A. Moylan, MD*

Discuss the epidemiology and epigenetics of NAFLD.

- **Diagnostic Approach to NAFLD**

*Naim Alkhouri, MD*

Identify the diagnostic approaches to NAFLD.

- **Therapy for NAFLD**

*Zobair M. Younossi MD, MPH, FACG*

Outline the dietary and medical therapies for NAFLD.

### **SYMPOSIUM 6: Updates in Liver Transplantation and HCC for the Busy Gastroenterologist**

- **Liver Transplantation**

*Philip K. Henderson, DO*

Recognize patients in need of liver transplant evaluation.

- **Outpatient Management of OLT Patients**

*Gina Choi, MD*

Understand the long-term follow-up for patients who have undergone liver transplantation to promote quality care.

- **Hepatocellular Carcinoma Primer**

*Anjana A. Pillai, MD*

Identify patients with HCC and those who would benefit from medical therapy or liver transplantation.

### **SYMPOSIUM 7: Nausea and Vomiting: Evolving Insights and Clinical Challenges**

- **Practical Insights From the Neurobiology of Nausea and Vomiting**

*Braden Kuo, MD*

Describe how the neurobiology of nausea and vomiting influences treatment options.

- **Emerging Treatment: Pharmacologic and Non-Pharmacologic Options for Nausea and Vomiting**

*Linda Anh B. Nguyen, MD*

Compare latest treatment strategies for nausea and vomiting.

- **Treatment of Gastroparesis: Beyond the Old Standbys**

*Baharak Moshiree, MD, FACG*

Summarize recent pharmacologic and interventional advances in the management of gastroparesis.

### **SYMPOSIUM 8: 50 Shades of Bloating: Multiple Perspectives on a Vexing Condition**

- **It's All Gas Production: Dietary and Microbial Factors**

*Ali Rezaie, MD, MSc*

Recognize the role of gut microbiota and diet in the pathogenesis of bloating.

- **It's All Hot Air: Bloating Is a Sensory Symptom**

*Kyle D. Staller, MD, MPH*

Explain the role of the brain-gut axis in the generation of bloating symptoms.

- **Motility Matters Most!**

*Gregory S. Sayuk, MD, MPH, FACG*

Appraise the evidence available regarding motility agents in bloating.

### **SYMPOSIUM 9: Endoscopy in 2020 and Beyond: An Update**

- **Best Practice Paradigms for Performing a High Quality ERCP**

*Vivek Kaul, MD, FACG*

Explain the evidence-based best practice principles for performing a high quality ERCP for optimal patient outcomes.

- **Endoscopic Ultrasound: Current Status and Future Direction**

*Michael J. Levy, MD*

Illustrate current and future developments in EUS as they relate to a general GI practice and quality parameters.

- **Bariatric Endoscopy: Strides Made and the Road Ahead**

*Violeta B. Popov, MD, PhD, FACG*

Discuss how the field of bariatric endoscopy has evolved and what the future holds, including challenges and opportunities.

### **SYMPOSIUM 10: What's New With Small Bowel Disorders?**

- **Common Clinical Scenarios Surrounding Celiac Disease**

*Peter H.R. Green, MD, FACG*

Differentiate celiac disease from mimicking conditions and define the approach to non-responders on a gluten-free diet.

- **Small Intestinal Bacterial Overgrowth: What's New?**

*Richard J. Saad, MD, FACG*

Discuss the ACG guidelines on diagnosis and treatment of SIBO.

- **Short Bowel Syndrome: An Update**

*Carol E. Semrad, MD, FACG*

Identify current challenges in the care of patients with short bowel syndrome and describe treatment strategies.

### **PAST PRESIDENT'S SYMPOSIUM**

- **New Developments in Hereditary Cancer Syndromes**

*Past President: Carol A. Burke, MD, FACG*

*Sapna Syngal, MD, MPH, FACG*

Appraise and apply contemporary best evidence in the management of hereditary cancer syndromes.

- **Endoscopic Management of IBD**

*Past President: Sunanda V. Kane, MD, MSPH, FACG*

*Bo Shen, MD, FACG*

Recognize evolving endoscopic techniques to manage IBD complications.

- **New Treatments for IBS**

*Past President: Eammon M. M. Quigley, MD, MACG*

*Yuri A. Saito-Loftus, MD, MPH*

Discuss and apply emerging therapeutic options for IBS.

# ANNUAL SCIENTIFIC MEETING

## ON-DEMAND & BONUS SESSIONS (CONT.)

### ANNUAL SCIENTIFIC MEETING ORAL ABSTRACT PAPER PRESENTATIONS

Oral papers #12-69 will be available as individual on-demand presentations. Additionally, highlights of this year's clinically-relevant and noteworthy oral abstracts will be discussed by expert faculty on Wednesday, October 28, from 3:30pm-4:30pm (Eastern time). See page 17 for details.

Oral papers #1-6 will be presented during the live-streamed Presidential Plenary Session on Monday, October 26, from 3:00pm-4:00pm (Eastern time) (see page 14 for these selected papers). Oral papers #7-11 will be presented during the live-streamed Presidential Plenary Session on Tuesday, October 27, from 3:00pm-4:00pm (Eastern time) (see page 16 for these selected papers).

*Note: All oral papers will appear in the supplement to the October 2020 issue of the AJG. Their supplement IDs are listed in parentheses before the abstract title.*

#### 12. (S0002) Developing a Multimodal Platform for Precision Medicine Using Endoscopic Fine Needle Biopsies in Pancreatic Cancer

★ *ACG Auxiliary Award (Trainee)*

Eileen S. Carpenter, MD, PhD<sup>1</sup>, Nina Steele, PhD<sup>1</sup>, Samantha Kemp<sup>1</sup>, Veerini Sirihorachai<sup>1</sup>, Stephanie The, MS<sup>1</sup>, Arvind Rao, PhD<sup>1</sup>, Michelle Anderson, MD, MS<sup>1</sup>, Vaibhav Sahai, MD<sup>1</sup>, Valerie Gunchick<sup>1</sup>, Richard Kwon, MD<sup>1</sup>, Ryan Law, MD<sup>1</sup>, Erik-Jan Wamsteker, MD<sup>1</sup>, Anoop Prabhu, MD<sup>1</sup>, Allison Schulman, MD<sup>1</sup>, Arjun Sondhi, MD<sup>1</sup>, Jessica Yu, MD<sup>2</sup>, Arpan Patel, MD<sup>3</sup>, Howard Crawford, PhD<sup>1</sup>, Timothy Frankel, MD<sup>1</sup>, Filip Bednar, MD, PhD<sup>1</sup>, Marina Pasca di Magliano, PhD<sup>4</sup>; <sup>1</sup>University of Michigan, Ann Arbor, MI; <sup>2</sup>Oregon Health & Science University, Portland, OR; <sup>3</sup>Kaiser Permanente, Lutherville, MD; <sup>4</sup>University of Michigan Medical Center, Ann Arbor, MI

#### 13. (S0003) A 5-Year Post-Surgical Follow-Up of 100 Patients With Pancreatic Cysts: Evaluating the Incidence Rates and Predictors of Recurrent Pancreatic Cysts, High-Risk Transformation and Malignant Transformation

Mohannad Abou Saleh, MD<sup>1</sup>, Motasem Alkhayat, MD<sup>1</sup>, Farhan M. # ANNUAL SCIENTIFIC MEETING

## ON-DEMAND & BONUS SESSIONS

### ANNUAL SCIENTIFIC MEETING BONUS SESSIONS

(Formerly Breakfast Sessions) - Must be registered for the Annual Scientific Meeting to purchase access to these sessions.

#### **SESSION A: Clinical Challenges in Acute and Chronic Pancreatitis**

- **Evaluation and Management of Acute Recurrent Pancreatitis**

*Santhi Swaroop Vege, MD, MACG*

Outline the definition, diagnosis, and evaluation of the patient with ARP, including the indications and roles of endoscopic, medical, and surgical treatments.

- **A Practical Multidisciplinary Approach to the Diagnosis and Management of Chronic Pancreatitis**

*Tyler Stevens, MD, FACP*

Summarize the indications and roles of medical, endoscopic, and surgical management of CP, including pain management.

- **Management of Acute Necrotizing Pancreatitis in 2020: An Update**

*Prabheleen Chahal, MD, FACP*

Discuss the evidence-based, multidisciplinary and state of the art approach to management of the patient with severe necrotizing pancreatitis.

#### **SESSION B: IBD: The Latest and Greatest In...**

- **...Efficacy**

*David P. Hudesman, MD*

Analyze up-to-date evidence, including comparative effectiveness, of biologic and small molecule efficacy in IBD.

- **...Safety**

*Raymond K. Cross, Jr., MD, MS, FACP*

Recognize current safety concerns for biologics and small molecules used to treat IBD.

- **...Emerging Therapies**

*Bincy P. Abraham, MD, FACP*

Identify promising therapeutics for the treatment of IBD.

#### **SESSION C: Hot Topics in Liver Disease**

- **Management of Cirrhotic Complications**

*Mitchell A. Mah'moud, MD, FACP*

Discuss the current strategies for high quality management of HE, ascites, and complications of end stage liver disease.

- **AKI in Cirrhotics**

*Paul Y. Kwo, MD, FACP*

Describe the current definition of acute kidney injury (AKI) in cirrhotics and identify the strategies to prevent and treat.

- **Alcoholic Liver Disease**

*Mark W. Russo, MD, MPH, FACP*

Identify the epidemiology of alcoholic liver disease, current management, and future therapies.

#### **SESSION D: Symptoms Following Foregut Interventions:**

##### **It's Back in Your Court**

- **Reflux and Recurrent Dysphagia After Achalasia Interventions**

*Rena H. Yadlapati, MD, MSHS*

Formulate a treatment strategy for patients who remain symptomatic after intervention for achalasia.

- **Dysphagia, Dyspepsia, and Bloating After Anti-Reflux Surgery**

*Scott L. Gabbard, MD*

Manage dysphagia and functional gastrointestinal symptoms after antireflux surgery.

- **Weight Lost, Symptoms Gained: Complaints After Bariatric Surgery**

*Violeta B. Popov, MD, PhD, FACP*

Identify and manage common patient concerns after bariatric surgery.

#### **SESSION E: Innovations in Practice Management**

- **Social Media and Your Practice: The Why and How**

*Mark B. Pochapin, MD, FACP*

Discuss benefits and risks of having a social media presence for your practice and how to establish one, including creating a website and handling patient reviews.

- **Telemedicine and Your Practice: Is It Worth It?**

*Jordan J. Karlitz, MD, FACP*

Describe infrastructure, settings, coding, reimbursement, and the specific experience/advantage for hepatology and IBD, especially in underserved areas.

- **APPs and Your Practice: Maximizing Their Potential While Providing Quality Care**

*Daniel J. Pambianco, MD, FACP*

Identify the role of APPs in various practice and specialty settings, how to train APPs, utilizing various billing scenarios, and how to make it profitable.

#### **SESSION F: Colonic Conundrums**

- **Pseudo-Obstruction – Update on Management**

*Charles J. Kahi, MD, MSc, FACP*

Summarize the current practice standards for diagnosis and management of pseudo-obstruction of the colon.

- **Know When to Stent 'em and When to Cut 'em: Managing Malignant Obstruction**

*Amrita Sethi, MD*

Identify when to stent versus when to operate in malignant colorectal obstruction.

- **Acute and Recurrent Diverticulitis – To Cut or Not to Cut**

*Susan Galandiuk, MD, FACP, FACS, FASCRS*

Discuss the updated guidelines for treatment of acute and recurrent diverticulitis and when to operate.

#### **SESSION G: Minimizing and Managing Endoscopic Complications: Tips and Tricks from the Experts**

- **Endoscopic Resection**

*Amit Bhatt, MD*

Describe management of complications associated with EMR, ESD, EFTR and STER procedures.

- **ERCP/EUS**

*Shivangi T. Kothari, MD, FACP*

Discuss management of common and uncommon complications in ERCP and EUS.

- **Endoscopic Complication Pot-pourri**

*Patrick I. Okolo, III, MD, MPH*

Identify the various types of endoscopic complications and their optimal management.

# ANNUAL SCIENTIFIC MEETING

## ON-DEMAND & BONUS SESSIONS (CONT.)

### **SESSION H: When GI Meets Surgery in IBD – The Severe UC Patient**

- **Steroid Refractory UC**  
*Jimmy K. Limdi, MD, FACG*  
Describe treatments available for steroid refractory ulcerative colitis.
- **Time to Meet the Surgeon**  
*Jean H. Ashburn, MD*  
Discuss key components of the surgical consultation in medically refractory ulcerative colitis.
- **Back to the GI – J-Pouch Complications**  
*Shannon Chang, MD*  
Categorize common complications arising in patients with ileal pouch-anal anastomosis.

### **SESSION I: Recent ACG Liver Guidelines**

- **Vascular Disorders of the Liver**  
*Douglas A. Simonetto, MD*  
Distinguish the different vascular disorders of the liver and recognize management strategies.
- **Hemochromatosis**  
*Vinay Sundaram, MD*  
Evaluate patients for iron overload and describe treatment plans.
- **Alcoholic Liver Disease**  
*Ashwani K. Singal, MD, MS, FACG*  
Explain the different aspects of alcoholic liver disease and summarize the latest guideline recommendations.

### **SESSION J: 2020 Hindsight: Where We Have Been and Where We Are Going**

- **High-Quality Endoscopic Mucosal Resection: When and How**  
*Christina J. Tofani, MD*  
Discuss the appropriate use of EMR, provide practical pearls, and demonstrate the techniques used for EMR.
- **I Should Have Seen It Coming! Preventing and Managing Polypectomy Complications**  
*Douglas K. Rex, MD, MACG*  
Explain how to decrease complications of polypectomy, including tips regarding cautery, snares, and prophylactic clipping, and how to manage bleeding and perforations.
- **Today and Tomorrow: Technological Advances That Matter**  
*Seth A. Gross, MD, FACG*  
Identify the hot technology of today and what is around the corner that could change the practice of GI and quality metrics.

### **SESSION K: Hey, It's Legal Now: Cannabinoids and the Gut**

- **Cannabinoid Effects on Motility and Pain**  
*Ron Schey, MD, FACG*  
Differentiate various effects of cannabinoids on the gastrointestinal tract.
- **Cannabinoids: Friend or Foe in Nausea and Vomiting?**  
*Thangam Venkatesan, MD*  
Contrast risk and benefits of cannabinoids in patients with chronic nausea and vomiting.
- **It's High Time We Learn How to Talk to Patients About Cannabis**  
*Linda Anh B. Nguyen, MD*  
Formulate an approach to the discussion of cannabinoids in patients with gastrointestinal symptoms.

### **SESSION L: Management Strategies for Eosinophilic Esophagitis**

- **Medical Management: PPI and Steroid Therapy**  
*Jennifer Horsley-Silva, MD*  
Identify the benefits of each individual approach to therapy in EoE: PPI, topical steroids, or both.
- **Dietary Management: Two, Four or Six Food Elimination?**  
*Nirmala Gonsalves, MD*  
Describe the benefits and burden of different food elimination diets in the management of EOE.
- **Management of Refractory EoE**  
*Evan S. Dellon, MD, MPH, FACG*  
Define refractory EoE and describe potential alternative therapies/approaches to control disease.

### **SESSION M: FMT**

- **How to Introduce FMT Into Your Practice – Formulation, Administration, and Regulation**  
*Neilanjan Nandi, MD*  
Explain the how to's involved in setting up FMT in a GI practice.
- **The Science Behind the Stool**  
*Jessica R. Allegretti, MD, MPH*  
Identify clinically relevant information for the practicing gastroenterologist regarding how FMT works, potential side effects, precautions, and how this applies to managing patients.
- **Current and Future Indications for FMT**  
*Colleen R. Kelly, MD, FACG*  
Discuss current and speculate future uses of FMT.

### **SESSION N: Reproduction in IBD: From Conception to Postpartum**

- **Fertility and Conception: It Takes Two!**  
*Shayla A. Schoenoff, PA*  
Discuss common fertility and preconception concerns for men and women with IBD.
- **Pregnancy: The Three Trimesters**  
*Eugenia Shmidt, MD*  
Describe the management of IBD during pregnancy and delivery.
- **Postpartum: The Fourth Trimester**  
*Lisa B. Malter, MD, FACG*  
Outline challenges of IBD treatment in the postpartum period, including lactation, resumption of therapy, and infant vaccinations.

### **SESSION O: Fundamentals of Quality Liver Care**

- **Updates in Viral Hepatitis**  
*Joseph C. Ahn, MD, MS, MBA, FACG*  
Distinguish between the different viral hepatitis and identify the best management options.
- **Preop Management of Patients With Liver Disease**  
*Mitchell L. Shiffman, MD, FACG (VA)*  
Describe best practices for preoperative management of patients with liver disease.
- **Noninvasive Evaluation of Fibrosis**  
*Michael F. Chang, MD*  
Compare the latest options on noninvasive evaluation of hepatic fibrosis and understand how to choose between the options.

**Bincy P. Abraham, MD, MS**

Associate Professor, Houston Methodist Hospital, Houston, TX

**Anita Afzali, MD, MPH, FACG**

Medical Director, Inflammatory Bowel Disease Center, The Ohio State University Wexner Medical Center, Columbus, OH

**Joseph H. Ahn, MD, MS, MBA, FACC**

Professor, Oregon Health & Science University, Portland, OR

**Sameer A. Al Awadhi, MD**

Head of Gastroenterology Unit, Dubai Health Authority, Dubai, UAE

**Naim Alkhouri, MD**

VP of Academic Affairs, Arizona Liver Health, Scottsdale, AZ

**Jessica R. Allegretti, MD, MPH**

Associate Director, Crohn's and Colitis Center, Brigham & Women's Hospital, Boston, MA

# ACG 2020 EXHIBIT HALL

## THE SCIENCE AND TECHNOLOGY OF MEDICINE IS EVER-CHANGING AND ADVANCING THE PRACTICE OF GASTROENTEROLOGY.

Showcasing these latest advances in technology and therapeutics is the ACG 2020 Virtual Exhibit Hall where more than 70 companies will display and demonstrate their products and services. Companies that exhibit include pharmaceutical manufacturers, medical instrument suppliers, research companies, technology companies, publishers, non-profit organizations, recruiters, and many others.

# POSTER PRESENTATIONS

## NEW THIS YEAR! ACG LAUNCHES A VIRTUAL EPOSTER HALL!

ACG is excited to bring the nearly 3,000 accepted scientific poster abstracts to attendees via an online site this year. All registered attendees of ACG 2020 will have access to the site, and can browse the virtual ePoster Hall to view high-quality digital versions of print posters. The ePoster Hall site will open on October 9, 2020, and will remain available for at least one year following ACG 2020.

### Highlights of the ePoster Hall:

- ✓ In addition to the ePosters, many presenters have recorded audio accompaniments to their presentations.
- ✓ The ePoster Hall makes it easy to search by author name, affiliation, poster title, and keywords.
- ✓ As you navigate the ePoster hall, use the tools to zoom in on details (or pinch in/out with from a touch screen device).
- ✓ Ask a question or send a message directly to ePoster authors who have chosen to share their email addresses.

Presidential Poster Award recipients will be identified by a blue ribbon icon, and Outstanding Poster Presenter recipients will be identified by a red ribbon icon.

## POSTER PRESENTATIONS

All poster abstracts will appear in the supplement to the October 2020 issue of the *AJG*.  
Their supplement IDs are listed in parentheses before the abstract title.

## BILIARY/PANCREAS

### Standard Study

#### **P0001. (S0007) Palliative Endoscopic Biliary Radiofrequency Ablation and Percutaneous Biliary Radiofrequency Ablation as Therapies for Patients With Unresectable Cholangiocarcinoma: A Meta-Analysis on Overall Survival Outcomes**

Jeffrey Rebhun, MD, Edward C. Villa, MD; University of Illinois at Chicago, Chicago, IL

#### **P0002. (S0008) Palliative Endoscopic Biliary Radiofrequency Ablation Compared to Percutaneous Biliary Radiofrequency Ablation: A Meta-Analysis on Survival Outcomes**

Jeffrey Rebhun, MD, Edward C. Villa, MD; University of Illinois at Chicago, Chicago, IL

#### **P0003. (S0009) Palliative Endoscopic Biliary Radiofrequency Ablation With Stenting Compared to Biliary Stenting Alone in the Treatment of Unresectable Cholangiocarcinoma: A Meta-Analysis on Survival Outcomes**

Jeffrey Rebhun, MD, Edward C. Villa, MD; University of Illinois at Chicago, Chicago, IL

#### **P0004. (S0010) Palliative Percutaneous Biliary Radiofrequency Ablation as Therapy for Patients With Unresectable Cholangiocarcinoma: A Meta-Analysis on Overall Survival Outcomes**

Jeffrey Rebhun, MD, Edward C. Villa, MD; University of Illinois at Chicago, Chicago, IL

#### **P0005. (S0011) Palliative Endoscopic and Percutaneous Biliary Radiofrequency Ablation With Stenting Compared to Biliary Stenting Alone in the Treatment of Unresectable Cholangiocarcinoma: A Meta-Analysis on Survival Outcomes**

Jeffrey Rebhun, MD, Edward C. Villa, MD; University of Illinois at Chicago, Chicago, IL

#### **P0006. (S0012) Palliative Endoscopic Biliary Radiofrequency Ablation With Stenting Compared to Percutaneous Biliary Radiofrequency Ablation With Stenting: A Meta-Analysis on Survival Outcomes**

Jeffrey Rebhun, MD, Edward C. Villa, MD; University of Illinois at Chicago, Chicago, IL

#### **P0007. (S0013) Palliative Endoscopic Biliary Radiofrequency Ablation as Therapy for Patients With Unresectable Cholangiocarcinoma: A Meta-Analysis on Overall Survival Outcomes**

Jeffrey Rebhun, MD, Edward C. Villa, MD; University of Illinois at Chicago, Chicago, IL

#### **P0008. (S0014) Palliative Percutaneous Biliary Radiofrequency Ablation With Stenting Compared to Biliary Stenting Alone in the Treatment of Unresectable Cholangiocarcinoma: A Meta-Analysis on Survival Outcomes**

Jeffrey Rebhun, MD, Edward C. Villa, MD; University of Illinois at Chicago, Chicago, IL

#### **P0009. (S0015) Oral Anticoagulants for Venous Thromboembolism (VTE) in Pancreatic Cancer: Friend or Foe**

Nishanth Thalambedu, MD<sup>1</sup>, Waqas Ullah, MD<sup>1</sup>, Shristi Khanal, MD<sup>1</sup>, Bikash Basyal, MD<sup>1</sup>, Christian Fidler, MD<sup>2</sup>, Steven Cohen, MD<sup>2</sup>; <sup>1</sup>Abington Jefferson Health, Abington, PA; <sup>2</sup>Asplundh Cancer Pavilion / Abington Jefferson Health, Abington, PA

#### **P0010. (S0016) Efficacy of Pancreatotomy for Pancreatic Duct Calculi: A Systematic Review and Meta-Analysis**

Harmeet S. Mashiana, MD<sup>1</sup>, Syed M. Saghir, MD<sup>2</sup>, Babu P. Mohan, MBBS, MD<sup>3</sup>, Banreet S. Dhindsa, MD<sup>2</sup>, Amaninder Dhaliwal, MD<sup>1</sup>, Saurabh Chandan, MD<sup>1</sup>, Neil Bhogal, MD<sup>1</sup>, Sarah Malik, MD<sup>1</sup>, Ishfaq Bhat, MD<sup>1</sup>, Shailender Singh, MD<sup>1</sup>, Douglas G.
